NOTE: Persons of Hispanic ethnicity can be of any race or combination of races. The figures on this table indicate the number of persons reported as being white alone and Non-Hispanic (non-minority) and those of a given minority race or Hispanic ethnicity (as indicated by the column heading).

^aPercentage of the Sub-area, County, or Region's population.

^bSub-area total includes portions of the Cities of Hartford and Whitewater and portions of the Village of Lac La Belle that extend outside the Region.

NOTES:

Lower wage jobs include those with a 2009 average annual wage of 80 percent or below the 2009 average annual wage for all jobs in the County in which the sub-area is located. Moderate wage jobs include those with a 2009 average annual wage between 80 and 135 percent of the 2009 average annual wage for all jobs in the County in which the sub-area is located. Higher wage jobs include those with a 2009 average annual wage of 135 percent or more of the 2009 average annual wage for jobs in the County in which the sub-area is located. The wage thresholds by County are shown on Table VIII-3 in Chapter VIII of the draft housing plan.

Land use plan categories included in each housing cost type are provided in Table VIII-13 in Chapter VIII of the draft housing plan.

A Type 1 imbalance is a sub-area with a higher percentage of lower wage employment than lower cost housing. A Type 2 imbalance is a sub-area with a higher percentage of moderate wage employment than moderate cost housing. A Type 3 imbalance is a sub-area with a higher percentage of higher wage employment than higher cost housing. A sub-area has an imbalance if there is a housing to job deficit of 10 or more percentage points.

^aExcludes the portions of the Village of Newburg and Village of Bayside in Ozaukee County.

NOTES:

Lower wage jobs include those with a 2009 average annual wage of 80 percent or below the 2009 average annual wage for all jobs in the County in which the sub-area is located. Moderate wage jobs include those with a 2009 average annual wage between 80 and 135 percent of the 2009 average annual wage for all jobs in the County in which the sub-area is located. Higher wage jobs include those with a 2009 average annual wage of 135 percent or more of the 2009 average annual wage for jobs in the County in which the sub-area is located. The wage thresholds by County are shown on Table VIII-3 in Chapter VIII of the draft housing plan.

Land use plan categories included in each housing cost type are provided in Table VIII-133 in Chapter VIII of the draft housing plan.

A Type 1 imbalance is a sub-area with a higher percentage of lower wage employment than lower cost housing. A Type 2 imbalance is a sub-area with a higher percentage of moderate wage employment than moderate cost housing. A Type 3 imbalance is a sub-area with a higher percentage of higher wage employment than higher cost housing. A sub-area has an imbalance if there is a housing to job deficit of 10 or more percentage points.

^aExcludes that portion of Kenosha County located in Sub-area 38 (Village of Genoa City).

^bAlthough Sub-area 34 has a Type 2 imbalance, it has enough lower cost housing to accommodate both lower-wage and moderate-wage workers.
