I. INTRODUCTION

The Public Transit – Human Services Transportation Coordination Plan for Milwaukee County: 2012, hereafter referred to as the Coordination Plan, is intended to provide a framework to assist community leaders, human services agencies, and public transit agencies in improving public transit and human services transportation in Milwaukee County and the County’s connections to the Southeastern Wisconsin Region. The Coordination Plan assesses the existing public transit and human services transportation services and needs in the County, identifies unmet needs or service gaps, and presents a prioritized list of strategies to address those needs. By focusing on coordination strategies that use existing resources, the Coordination Plan aims to improve the access of County residents to transportation in a cost-effective manner.

Federal and State Coordination Planning Requirements

The coordination planning process was last undertaken in 2008 in response to the federal requirements in the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU), which was adopted into law in August of 2005. SAFETEA-LU requires that projects selected for funding under three Federal Transit Administration (FTA) programs—the Elderly Individuals and Individuals with Disabilities (Section 5310), Job Access and Reverse Commute (JARC), and New Freedom programs—be “derived from a locally developed public transit-human services transportation coordination plan,” and that the coordination planning process be undertaken every four years.

Passed in July of 2012, the Federal Moving Ahead for Progress in the 21st Century Act (MAP-21) renews some coordinated planning requirements from SAFETEA-LU, but only mandates that projects selected for funding under the renamed Enhanced Mobility of Seniors and Individuals with Disabilities program (Section 5310), Job Access and Reverse Commute (JARC), and New Freedom programs—be “derived from a locally developed public transit-human services transportation coordination plan,” and that the coordination planning process be undertaken every four years.

Several agencies and organizations in Milwaukee County have received funding under the Section 5310, JARC, and New Freedom programs in the past. The Coordination Plan will help ensure the eligibility of current and future transit projects funded through those programs.

The Coordination Plan includes the following elements required under Federal regulations:

- An assessment of transportation needs for individuals with disabilities, seniors, and people with low incomes;
- An assessment of available transportation services;
- Strategies to address the identified gaps between current services and needs, as well as opportunities to improve efficiencies in service delivery; and
- Priorities for implementing strategies.

Role of the Southeastern Wisconsin Regional Planning Commission

The Regional Planning Commission, at the request of WisDOT, and with guidance and input from human services agencies and public and private transit operators in each county, has facilitated the planning process and prepared the maps, tables, and inventories for the Coordination Plans for each of the seven counties in the Region. For the Milwaukee County Coordination Plan, Commission staff invited a wide range of stakeholders from Milwaukee County and the Region to a meeting to identify the unmet transportation needs in the Region and in each of the seven counties, and develop strategies to address the needs. The invitation list, meeting records, and attendance lists for this meeting are documented in Appendices A and B.

In addition to this Coordination plan, the Commission also periodically prepares the long-range (25-30 years) transportation system plan for the seven-county southeastern Wisconsin Region and short-range (5 years) transit development plans for each of the Region’s public transit systems. The year 2035 regional transportation system plan for southeastern Wisconsin, adopted in 2006 and reaffirmed in 2010, is intended to provide a vision for, and guide to, transportation system development in the Region into the future. The short-range transit service plans address current transit service issues
and needs, and represent an initial stage of implementation of the recommendations of the regional transportation system plan. A transit system development plan for the Milwaukee County Transit System (MCTS) was prepared in 2010 and provided a five-year plan for transit service improvement and expansion. The plan evaluated the existing operations of the MCTS; identified unmet transit travel needs for Milwaukee County residents, and recommend transit service and capital improvements for the County transit system should funding become available.
II. TRANSPORTATION NEEDS OF INDIVIDUALS WITH DISABILITIES, SENIORS, AND PEOPLE WITH LOW INCOMES

General Population Characteristics
Milwaukee County is located along Lake Michigan, in southeastern Wisconsin, and is bordered by Waukesha County to the west, Racine County to the south, Lake Michigan to the east, and Ozaukee County to the north. The County is mostly urban but has some rural and undeveloped areas in the southern portion of the County, in the Cities of Oak Creek and Franklin. Milwaukee County’s population in 2011 was 952,500, according to the U.S. Census Bureau. Of that total, the population of the City of Milwaukee made up 597,900, or about 63 percent. Map 1 shows the population density in 2010 by U.S. Public Land Survey quarter-section.

Between 1980 and 2000, the Milwaukee County’s population declined by 2.6 percent from approximately 965,000 to 940,200 persons, respectively. Following that decline, slow growth has occurred since 2000 and is expected to accelerate through 2020. As Figure 1 displays, the Milwaukee County population is projected to grow to 977,800 by the year 2020.

Transit-Dependent Population Characteristics
Certain segments of the population may be expected to have a greater dependence on, and make more extensive use of, public transit than the population as a whole because they have historically had more limited access to the automobile as a mode of travel than the population in general. Four such “transit-dependent” population groups were identified for this plan:

- Seniors (ages 75 and older),
- Persons in low-income households,
- Disabled individuals, and
- Households with no vehicle available.

Table 1 displays the historic population of these groups in the study area in 1990, 2000, and 2010. The information in the table leads to the following observations:

- Persons in low-income households accounted for the largest share of the transit-dependent population in the County at about 38 percent of the total County population. Disabled persons also make up a significant portion of the population (12 percent), and households with no vehicle available account for about 13 percent of all households. Seniors are the smallest transit-dependent population group at approximately 6 percent of the County’s population.
- Between 2000 and 2010, persons with disabilities and persons in low-income households increased in absolute number and in the share of the total population. Seniors and zero-auto households have decreased both in absolute numbers and in their percent of total population and households, respectively.

Data from the 2010 Census were used to identify areas in Milwaukee County where transit needs are highest. Map 2 displays Census block groups within the County with the highest concentration of transit-dependent populations. These may be considered as potential priority areas for the provision of transit service.

In 2010, residential populations with transit needs were spread through much of the county, with the highest transit-dependent population concentrations in the north-central, south central, and northwest parts of the County.

**Employment Characteristics**
Map 3 displays employment density in 2000 by U.S. Public Land Survey quarter-section. The highest employment concentrations in the County are in the center of the City of Milwaukee, including the central business. Significant portions of the county have high employment density, with only the

Map 2
TRANSIT NEEDS INDEX FOR MILWAUKEE COUNTY: 2009

NOTE:

THE TRANSIT NEED INDEX IS CALCULATED BY RANKING CENSUS BLOCK GROUPS BASED ON THE PERCENT OF TOTAL POPULATION OR HOUSEHOLDS IN FOUR CATEGORIES: ELDERLY PERSONS (75 AND OLDER), PERSONS IN LOW-INCOME HOUSEHOLDS, DISABLED PERSONS, AND HOUSEHOLDS WITH NO VEHICLE AVAILABLE. EACH RANKED BLOCK GROUP IS ASSIGNED A SCORE FROM 1 TO 4, IN EACH CATEGORY, WITH A 1 FOR THE LOWEST PERCENTAGES AND A 4 FOR THE HIGHEST PERCENTAGES. THE TRANSIT NEED INDEX IS EQUAL TO THE SUM OF THE SCORES FOR ALL FOUR CATEGORIES.

TRANSPORT NEEDS INDEX LEVEL

- LOW (4 TO 8)
- MODERATE (9 TO 12)
- HIGH (13 TO 16)

southern quarter of the county being sparsely developed.

**Major Activity Centers**
Transportation needs must also consider the local travel demand generated by major activity centers. Major activity centers can be land uses or facilities that currently attract, or have the potential to attract, significant total person or transit person trips. Seven types of major activity centers were considered for this Coordination Plan:

- Hospitals, Medical Centers, or Clinics with 10 or more physicians
- Job Resource Centers
- Major Commercial Areas (areas with more than 3,500 jobs in the office or service sectors, or more than 2,000 jobs in the retail trade sector)
- Major Employers with 500 or More Employees
- Major Institutions of Higher Education (the main campus of all traditional four-year colleges and universities, and the main location of public technical colleges)
- Residential Facilities for Seniors, People with Disabilities, and Low-Income Families
- Senior Centers and Senior Meal Sites

Map 4 shows their locations. There is a high concentration of these facilities in close approximation to the City of Milwaukee central business district, with many major employers, residential facilities, and commercial areas also located throughout the County. It is important to note that disabled individuals reside throughout Milwaukee County and many live independently, not just in special housing facilities.
III. CURRENT TRANSPORTATION SERVICES

Milwaukee County is served by a number of transportation providers, ranging in size from the MCTS, a traditional urban public transit system with large buses operating over fixed routes, to volunteer organizations that serve individuals by providing rides in private automobiles.

Table 2 lists the major transportation providers currently serving Milwaukee County, and identifies the type of service they provide, their service area, their hours of operation, and their funding sources in addition to passenger fares. The first section of the table lists services that are open to the general public, while the second section lists services intended to serve a particular part of the population including the elderly, the disabled, low-income persons, or veterans. These services are generally called “human services transportation”.

Transportation Services for the General Public

The principal transportation services for the general public provided in Milwaukee County include:

- MCTS, operated by Milwaukee County, is a publicly-funded urban bus operation that runs fixed routes serving Milwaukee County and portions of adjacent counties. MCTS also provides paratransit service to serve the travel needs of disabled individuals through the Transit Plus paratransit system.

- The Ozaukee County Express—operated by MCTS, under contract with Ozaukee County—is a publicly-funded bus service that serves Ozaukee County residents commuting to jobs in the Milwaukee Central Business District and Milwaukee County residents commuting to jobs in Ozaukee County.

- The Washington County Commuter Express—operated by a private transit company, Riteway Bus Services, Inc., under contract with Washington County—is a publicly-funded bus service that serves Washington County residents commuting to jobs in the Milwaukee Central Business District.

- Waukesha County Transit System provides a publicly-funded bus service primarily to serve persons commuting between Waukesha and Milwaukee Counties. The County contracts with one public transit operator, MCTS, and one private transit company, Wisconsin Coach Lines, Inc., to operate the bus services serving Milwaukee County.

- Wisconsin Coach Lines, Inc. operates one publicly-funded route which provides commuter-oriented express bus service between downtown Milwaukee and the Cities of Racine and Kenosha. The City of Racine contracts for the service and acts as the public applicant and grantee for the State urban transit operating assistance funds used to subsidize the service.

Several private-for-profit companies serve the general public, including taxicab service and airport shuttle or limousine service provided by several private companies in Milwaukee County. In addition, several transportation companies provide intercity rail or bus services to the general public, including Amtrak, Coach USA, and Greyhound Lines.

Human Services Transportation

Other transportation services in the County are primarily aimed at serving the human services transportation needs of special population groups, including the elderly, the disabled, low-income persons, or veterans. Some of the major human services transportation providers include:

- The Milwaukee Area JobRide Collaborative provides transportation to and from jobs on a subscription basis for the employees of participating employers.

- The Milwaukee County Department on Aging provides three types of door-to-door transportation services — group transportation services, meal site transportation services, and individualized transportation services — for ambulatory seniors who are unable to provide their own transportation, or use the County’s TransitPlus paratransit or fixed-route bus services.

• There are several other private-non-profit organizations that provide transportation to individuals that participate in their programs or attend activities or appointments at their centers.

• The remaining transportation services operated within the County are private-for-profit services that provide transportation for a variety of purposes, including medical appointments, within Milwaukee County and to surrounding counties.
(This page intentionally left blank)
IV. ASSESSMENT OF TRANSPORTATION SERVICES AND IDENTIFICATION OF UNMET TRANSPORTATION NEEDS

Although some transportation needs can be understood by examining how current transportation providers meet the needs identified in Census data, maps, and other sources of demographic data, many of the needs can only be understood through direct dialogue and communication from agencies and individuals that provide or rely on transportation services. A wide range of individuals and agencies with an interest in transportation in the Region and County were invited to participate in a meeting to assist in the development of the Coordination Plan (see Appendices A and B). At the meeting, Commission staff presented maps and data similar to those presented in the first three sections of this Coordination Plan. The meeting included participants from across the Region, who were divided into fourteen small groups of six to eight people each. Groups were assigned so that each group would have members from multiple counties in the Region.

The small groups went through an evaluation exercise in which they assessed how well current transportation services meet the need of residents to travel between counties in the Region. This evaluation of existing services was based on: area served; days and hours of operation; fares; eligibility requirements for the service; vehicle accessibility for wheelchairs; customer service; reservation wait time; and ease of finding information on services. Following this task, they were asked to use the results of their assessment to guide the development of a list of unmet transportation needs.

A summary of the key findings of the small group regional assessment and the identification of unmet regional transportation needs appears below in no particular order.

Unmet Needs for Travel between Counties

- Lack of coordination in the distribution of information on existing services across the Region.
- Limited transportation options between counties for travel to medical centers, including veterans traveling to Veterans Administration medical facilities in Milwaukee and Northern Illinois.
- Lack of public transit or other transportation services connecting unemployed or underemployed individuals to opportunities in suburban employment areas and connecting businesses to potential employees.
- Lack of a regional transit authority to provide and coordinate transit and paratransit services across county borders.
- Lack of coordination between transit agencies on fares and service hours, increasing customer inconvenience.
- Limited coordination between paratransit services in adjacent counties.
- Lack of eligibility reciprocity for county-managed human services transportation programs in the Region.
- Lack of coordination between the implementation of the Region’s transportation plan and entities involved in economic development in the Region.

The meeting also addressed travel needs within Milwaukee County. During the meeting, a second set of small group discussions occurred, where participants sat at a table with other attendees from the same county to perform a similar assessment of how well current services meet the needs of residents within the County. A summary of the key findings of the assessment and the identification of unmet regional transportation needs from both meetings appears below in no particular order.

Unmet Needs for Travel within Milwaukee County

- Lack of a dedicated funding source separate from the property tax levy to provide the level of financial assistance necessary to address existing and future public transportation needs in the County. In recent years, state and federal
funding, which provides the majority of the subsidy for transit services, has been decreasing. Since 2006, the State has imposed limits on the amount that local property tax levies can increase each year. The levy limits have placed significant pressure on local budgets.

- Need for improving the availability, convenience, safety, and security of using existing public transit services. Areas of need include:
  - Expansion of the areas served by, and higher frequency of service on, MCTS routes
  - New fare media and fareboxes
  - Incentives to ride the bus and paratransit services
  - Implementation of real time information for passengers
  - Improved snow removal at MCTS bus stops
  - Automated announcements of stops

- Need for more transportation services during weekday evenings and nights, and on weekends.

- Lack of coordination in the distribution of information on the available transportation services. There is no directory or contact person that can provide the public with comprehensive information on all available transportation options.

- Lack of public education on the available transportation options, including how to use them.

- Limited services to connect low-income individuals in the County to employment opportunities.

- Need for more Title 19 medical transportation service providers that serve the entire County, and higher reimbursement rates to encourage more service to be provided.

- Lack of a higher speed transit service in the County. Transit travel times are generally two to four times longer than automobile travel times.
V. STRATEGIES TO ADDRESS UNMET NEEDS

This Coordination Plan presents two types of strategies for Milwaukee County to consider in addressing the identified transportation needs in the County. The first section is a list of Federal and State funding programs that support public transportation services. The second section includes strategies that were identified by participants at the meeting for the development of the Coordination Plan.

Financial Strategies: Federal and State Funding Programs

Descriptions of the Federal and State programs that provide financial assistance for public transportation services and which could be used in Milwaukee County are illustrated in Tables 3 and 4.

</tbody>
</table>

*Due to the new federal transportation reauthorization bill (MAP-21) enacted in July 2012, certain programs listed in this table will not be available after 2013. FY 2012 funds remain from the previous transportation act to provide funding for Sections 5316 and 5317 in 2013, but following that granting process, JARC (Section 5316) funding may no longer be available to non-profits (as that program has been rolled into Sections 5307 and 5311) and New Freedom (Section 5317) is combined with Section 5310 to create the new Enhanced Mobility of Seniors and Individuals with Disabilities program. Under MAP-21, Section 5310 funding is available to local public bodies in addition to non-profits. Source: Wisconsin Department of Transportation and SEWRPC.*

*Due to the new federal transportation reauthorization bill (MAP-21) enacted in July 2012, certain programs listed in this table may not be available after 2013. FY 2012 funds remain from the previous transportation act to provide funding for TEAM and ETA in 2013, but following that granting process, program modifications or eliminations may be made by the Wisconsin Department of Transportation.*

Source: Wisconsin Department of Transportation and SEWRPC.

More information on Federal and State funding programs can be found on WisDOT’s website ([http://www.dot.wisconsin.gov/localgov/transit/index.htm](http://www.dot.wisconsin.gov/localgov/transit/index.htm)). In addition to the Federal and State programs shown in Tables 3 and 4, which are aimed primarily at providing transportation services, various human-service funding programs and block grant programs can be used for transportation services.

**Prioritized Strategies to Address Unmet Needs**

Attendees of the Coordination Planning meeting were asked to consider strategies to address the unmet needs that they had already identified. At the meeting, Commission staff provided information on strategies proposed in the 2008 Coordination Plans to illustrate potential strategies to improve transportation service.

Small groups were asked to use their previously created list of unmet transportation needs for the Region to guide their development of strategies, and then each group informed the remainder of the participants at the meeting of their suggested strategies. After some discussion, participants were asked to vote on their preferred strategies to address the Region’s unmet transportation needs, which led to the creation of the following prioritized list of strategies.

**Strategies for Addressing Unmet Travel Needs between Counties**

1. Establish a regional transit authority with a dedicated funding source.

2. Create a staffed call center for information about all public transportation and human services transportation. This call center could be built from the existing Southeast Wisconsin Transit Systems marketing partnership, and coordinated with an effort to increase education and outreach to the public.
3. Until a regional transit authority is established, improve and strengthen services that cross county lines to increase job access transportation. Target new services between areas of high unemployment and job centers.

4. Increase non-urgent medical transportation options for individuals not eligible for Medicaid.

5. Increase the availability of Demand Response services outside of Milwaukee, Ozaukee, and Washington Counties.

6. Consolidate functions and share resources among transportation providers. Some potential areas to share or consolidate include:
   a. Consolidated call center for trip reservations or scheduling
   b. Shared operating or support services, such as software, driver training, or drug testing programs

7. In lieu of a regional transit authority, the State should develop rules, policies, and procedures to guide the development and operation of local transit systems, which local transit systems would be required to follow.

8. Require memorandums of agreement or understanding between transit agencies to provide service across county borders as a stipulation for receiving state transit assistance.

9. Create a risk pool for specialized medical transportation providers to address cost issues with liability insurance.

10. Increase funding for mobility managers to assist them in coordinating across county lines, and create a liaison to coordinate all mobility managers in the region.

11. Establish consistent fare structures, eligibility requirements, and service hours for similar types of service in all counties. This will increase clarity and understanding by the public concerning services and how to use them.

12. Purchase new vehicles for transportation services, such as accessible vans or buses for wheelchair passengers.

Participants also developed a list of strategies for addressing unmet needs for travel within Milwaukee County. At the meeting, a second set of small group discussions occurred, where participants sat at a table with other attendees from the same county to follow up their identification of unmet needs with a list of strategies to address those needs. That discussion resulted in this prioritized list of strategies that the participants believed were appropriate for Milwaukee County.

**Strategies for Addressing Unmet Travel Needs within Milwaukee County**

1. Pursue a dedicated source of local funding with the state legislature for public transportation services and promote increases in funding for public transportation services to make improvements to service availability, convenience, safety, and lower fares. Continue to develop strategies to obtain funding for projects that would improve or increase the transportation services available in the County.

2. Prioritize investment in new or expanded services to provide low-income residents of the County access to employment opportunities.

3. Improve access to information on the available transportation services. Some ways to improve the dissemination of information and determination of eligibility requirements include:
   a. Implement a travel training program for potential users of the fixed-route services.
   b. Create an online directory of transportation providers.
   c. Create a clearinghouse or centralized information source for information on all transit services. Examples could include 211 community information or 511 traveler information services.
4. Improve the availability, convenience, safety, and security of transportation services. Some of the improvements that were identified included:
   a. Provide express transit services.
   b. Provide more frequent service on MCTS bus routes.
   c. Expand the service area and hours of operation of public transit services.
   d. Improve the accessibility of transportation services to older adults and disabled persons by using more accessible vehicles and removing other barriers to accessing transportation such as removing physical barriers and making other accessibility improvements at bus stops.
   e. Improve snow removal at bus stops and encourage bus drivers to always announce stops along bus routes.

5. Continue to fund a mobility manager position with MCTS or the County whose duties could include, but would not be limited to:
   a. Assisting in coordinating transportation services.
   b. Promoting the availability of transportation services.
   c. Gathering and analyzing data to evaluate a variety of transportation options for seniors, disabled, and low-income individuals.

6. Support auto purchase and repair programs and driver’s license recovery programs directed at low-income workers who cannot use public transportation to get to jobs.

7. Provide transportation services for low-income and disabled job seekers enrolled in job skills training or transitional jobs programs.

8. Promote and expand childcare transportation services within the County to enable parents in low-income families to obtain and retain employment.
VI. PLAN IMPLEMENTATION

Attendees of the Coordination Planning meeting were also asked to consider who should be responsible for implementing each of the identified strategies. Some of the potential responsible parties that the Milwaukee County participants identified are listed below.

Milwaukee County
- Milwaukee County would be responsible for improving the availability, convenience, safety, and security of the fixed-route and paratransit services offered by MCTS or the services provided by the Department on Aging.
- A transportation coordinating committee could be established to guide the implementation of the proposed coordination strategies.

Mobility Managers
- The mobility managers for Milwaukee County can facilitate the communication and coordination necessary to consider how transportation providers and agencies in Milwaukee County and the Region might share resources.
- Help develop a common eligibility determination for services or reciprocity agreement for transportation services both within Milwaukee County and between the County and surrounding counties.
- Improve access to information on the available transportation services and continue work on a travel training program.

All Transportation Providers
- Improve access to information on the transportation services provided.

All Parties
- All interested parties, including the City, County, and other municipalities, should advocate for increased transit funding including State funding and the establishment of dedicated funding for public transportation.
APPENDICES
Appendix A

AGENCIES AND INDIVIDUALS INVITED TO ATTEND MEETINGS
2012 COORDINATION PLANNING IN SOUTHEASTERN WISCONSIN

In addition to those listed below the County Executive, Chair of the County Board, Mayor, Village President, and Town Chair of each county and municipality in the Region were also invited to the meetings.

KENOSHA COUNTY

Eric Lynde .......................................................................................................................... Senior Planner, SEWRPC
Kevin Muhs .................................................................................................................................... Planner, SEWRPC

WELCOME AND INTRODUCTIONS
Mr. Muhs welcomed participants and asked attendees to introduce themselves and the agency they represented to their fellow attendees at their table. The participants had been assigned to one of fourteen small groups of six to eight people for the morning’s discussion of regional transportation. Each group had participants from multiple counties, to provide the widest perspective possible at each table. Mr. Muhs then explained the agenda for the meeting:

1. Overview of the coordination process
2. Information on existing and future funding programs and opportunities
3. Small group discussions addressing regional transportation
4. Discussion of the results of the small groups, with selection of regional prioritized strategies
5. Small group discussions addressing travel within each county

OVERVIEW OF THE COORDINATION PROCESS
Mr. Muhs described the federal requirements for project funding and coordination plans. He also described the Wisconsin Department of Transportation (WisDOT) coordinated planning process and the need for a regional planning approach.

INFORMATION ON EXISTING AND FUTURE FUNDING PROGRAMS
Mr. Miller and Ms. Foss of WisDOT outlined the various opportunities for funding assistance from the federal and state governments for public and non-profit operators. Mr. Miller described current funding opportunities available through federal Section 5316 funds and state Wisconsin Employment Transportation Assistance Program (WETAP) funds. Mr. Miller indicated that some programs may be changing as more guidance is received from the Federal Transit Administration regarding the recently passed transportation reauthorization bill, Moving Ahead for Progress in the 21st Century. Ms. Foss described funding opportunities for specialized medical transportation providers through the federal Section 5310 and 5317 programs.

SMALL GROUP DISCUSSION ADDRESSING REGIONAL TRANSPORTATION
Mr. Muhs introduced the small group discussion packet that assisted groups in their analysis of transportation services that crossed county borders, describing the inventories of principal transportation providers that cross county borders, including public, private, and non-profit providers of human services transportation and providers of transportation for the general public. He then described the other data available to the participants in the packets, including maps of existing public transit, specialized transportation, and paratransit services in the Region. He asked each small group to review the inventory list and provide any corrections or additional information. Following this review, attendees were asked to discuss existing regional transit services within their small group and assess the quality of the services based on eight different service attributes. This assessment guided the groups as they discussed needs that were unmet by existing services and prioritized fulfilling those unmet needs. Finally, each small group was asked to create strategies to address its list of unmet needs. Lists of previous unmet needs and strategies from the 2008 planning effort were provided to each participant to assist in the discussion within each small group.

DISCUSSION OF REGIONAL PRIORITIZED STRATEGIES
Following the completion of their packets by all of the small groups, each group was invited to select a member to discuss the group’s unmet needs and strategies to address those needs. Commission staff recorded these strategies while they were being discussed, and asked the participants to vote (by show of hands) on their top three strategies. The results of this voting process guided the development of a list of prioritized strategies to address the unmet travel needs of the Region. This list of prioritized strategies and a summary of the key findings of the
small group discussions appear in the Public Transit-Human Services Transportation Coordination Plan for each county.

**SMALL GROUP DISCUSSION ADDRESSING TRANSPORTATION WITHIN EACH COUNTY**
Following the selection of prioritized strategies to address regional needs, new small groups were formed to discuss transportation within each county. A similar process was followed as with the previous small groups, with each participant receiving a packet of information to guide the discussion. The small group discussion packet for each county contained an inventory of principal transportation providers within the county, including public, private, and non-profit providers of human services transportation and providers of transportation for the general public. Other information in each packet included population growth of transit dependent populations and maps of existing public transit service areas overlaid over population density, employment density, high transit need areas, and major activity centers. Lists of previous unmet needs and strategies from the 2008 planning effort were also provided to each participant to assist in the discussion within each small group. Small groups were asked to review the list of existing services, assess the quality of the services, create a list of unmet needs, and list strategies to address those unmet needs. Following the completion of those tasks, counties with more than one small group were asked to join together with the other tables discussing the same county to create a prioritized list of strategies for the county.

**WRAP-UP**
After the small group discussions, Mr. Muhs informed participants that a draft plan for each county would be assembled by Commission staff and available for comment. A finalized Public Transit-Human Services Transportation Coordination Plan for each county would be submitted to WisDOT by the end of the year.
