I. INTRODUCTION

The Public Transit – Human Services Transportation Coordination Plan for Racine County: 2012, hereafter referred to as the Coordination Plan, is intended to provide a framework to assist community leaders, human services agencies, and public transit agencies in improving public transit and human services transportation in Racine County and the County’s connections to the Southeastern Wisconsin Region. The Coordination Plan assesses the existing public transit and human services transportation services and needs in the County, identifies unmet needs or service gaps, and presents a prioritized list of strategies to address those needs. By focusing on coordination strategies that use existing resources, the Coordination Plan aims to improve the access of County residents to transportation in a cost-effective manner.

Federal and State Coordination Planning Requirements

The coordination planning process was last undertaken in 2008 in response to the federal requirements in the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU), which was adopted into law in August of 2005. SAFETEA-LU requires that projects selected for funding under three Federal Transit Administration (FTA) programs—the Elderly Individuals and Individuals with Disabilities (Section 5310), Job Access and Reverse Commute (JARC), and New Freedom programs—be “derived from a locally developed public transit-human services transportation coordination plan,” and that the coordination planning process be undertaken every four years.

Passed in July of 2012, the Federal Moving Ahead for Progress in the 21st Century Act (MAP-21) renews some coordinated planning requirements from SAFETEA-LU, but only mandates that projects selected for funding under the renamed Enhanced Mobility of Seniors and Individuals with Disabilities program (Section 5310), Job Access and Reverse Commute (JARC), and New Freedom programs—be “derived from a locally developed public transit-human services transportation coordination plan,” and that the coordination planning process be undertaken every four years.

Several agencies and organizations in Racine County have received funding under the Section 5310, JARC, and New Freedom programs in the past. The Coordination Plan will help ensure the eligibility of current and future transit projects funded through those programs.

The Coordination Plan includes the following elements required under Federal regulations:

- An assessment of transportation needs for individuals with disabilities, seniors, and people with low incomes;
- An assessment of available transportation services;
- Strategies to address the identified gaps between current services and needs, as well as opportunities to improve efficiencies in service delivery; and
- Priorities for implementing strategies.

Role of the Southeastern Wisconsin Regional Planning Commission

The Regional Planning Commission, at the request of WisDOT, and with guidance and input from human services agencies and public and private transit operators in each county, has facilitated the planning process and prepared the maps, tables, and inventories for the Coordination Plans for each of the seven counties in the Region. For the Racine County Coordination Plan, Commission staff invited a wide range of stakeholders from Racine County and the Region to a meeting to identify the unmet transportation needs in the region and in each of the seven counties, and develop strategies to address the needs. The invitation list, meeting records, and attendance lists for this meeting are documented in Appendices A and B.

In addition to this Coordination plan, the Commission also periodically prepares the long-range (25-30 years) transportation system plan for the seven-county southeastern Wisconsin Region and short-range (5 years) transit development plans for each of the Region’s public transit systems. The year 2035 regional transportation system plan for southeastern Wisconsin, adopted in 2006 and reaffirmed in 2010, is intended to provide a vision for, and guide to, transportation system development in the Region into the future. The short-range transit service plans address current transit service issues and needs, and represent an initial stage of
implementation of the recommendations of the regional transportation system plan. A transit system development plan for the City of Racine Belle Urban System was prepared in 1998 and provided recommendations that guided the implementation of several service changes enacted in the late 1990's and early 2000's. A new transit system development plan for 2013–2017 is nearly complete, and evaluates the City of Racine Belle Urban System; recommends transit service and capital improvements for the City bus system; identifies and evaluates all other existing public and human services transportation provided in Racine County; identifies the unmet transit travel needs for resident trips within Racine County and to/from other counties; and recommends actions to coordinate existing transportation services or initiate needed new transit services in the County.
II. TRANSPORTATION NEEDS OF INDIVIDUALS WITH DISABILITIES, SENIORS, AND PEOPLE WITH LOW INCOMES

General Population Characteristics
Racine County is located in southeastern Wisconsin, bordered by Walworth County to the west, Milwaukee County to the north, Lake Michigan to the east, and Kenosha County to the south. Interstate Highway 94 (IH 94) runs north-south through the County, splitting it into two parts: the predominantly urban eastern half, and the predominantly rural western half. Racine County’s population in 2011 was 195,400 persons, according to the U.S. Census Bureau. Of that total, the combined population of the City of Racine and neighboring Villages of Caledonia, Mount Pleasant, North Bay, Sturtevant, and Wind Point was 138,700 persons, or about 71 percent of the County. In western Racine County, small concentrations of population exist in the City of Burlington, Villages of Union Grove and Waterford, and the Town of Norway. Map 1 shows the population density in 2010 by U.S. Public Land Survey quarter-section.

Racine County’s population has increased steadily since 1990. Between 2000 and 2010, the County’s population grew by about 3.5 percent from approximately 188,800 to 195,400 persons, respectively. Steady growth is expected to continue through 2020. As Figure 1 displays, the Racine County population is projected to reach 203,200 persons by the year 2020.

Figure 1
RACINE COUNTY ACTUAL AND PROJECTED TOTAL POPULATION

Transit-Dependent Population Characteristics
Certain segments of the population may be expected to have a greater dependence on, and make more extensive use of, public transit than the population as a whole because they have historically had more limited access to the automobile as a mode of travel than the population in general. Four such “transit-dependent” population groups were identified for this plan:

- Seniors (ages 75 and older),
- Persons in low-income households,
- Disabled individuals, and
- Households with no vehicle available.

Table 1 displays the historic population of these groups in the study area in 1990, 2000, and 2010. The information in the table leads to the following observations:

- Persons in low-income households account for the largest share of the transit-dependent population in the County at about 28 percent of the total population. Disabled persons also make up a significant portion of the population at about 11 percent of the County’s residents. 6 percent of the population is at least 75 years of age, and about 7 percent of households have no vehicle available.
- Between 2000 and 2010, persons with disabilities and persons in low-income households increased in both absolute number and in their share of the total population. Seniors stayed a constant percentage of the population, but increased in absolute number. Zero vehicle households decreased in both share of all households and absolute number.

Data from the 2010 Census were used to identify areas in Racine County where transit needs are highest. Map 2 displays Census block groups within the County with the highest concentration of transit-dependent populations. These may be considered as potential priority areas for the provision of transit service.

In 2010, the highest concentrations of residential populations with transit needs were focused in the center of the City of Racine and around its outskirts. An additional area of high transit need is found in
Map 1

POPULATION DENSITY BY U.S. PUBLIC LAND SURVEY QUARTER-SECTION IN RACINE COUNTY: 2010

Source: SEWRPC
Map 2

TRANSIT NEEDS INDEX FOR RACINE COUNTY: 2009

NOTE:

THE TRANSIT NEED INDEX IS CALCULATED BY RANKING CENSUS BLOCK GROUPS BASED ON THE PERCENT OF TOTAL POPULATION OR HOUSEHOLDS IN FOUR CATEGORIES: ELDERLY PERSONS (75 AND OLDER), PERSONS IN LOW-INCOME HOUSEHOLDS, DISABLED PERSONS, AND HOUSEHOLDS WITH NO VEHICLE AVAILABLE. EACH RANKED BLOCK GROUP IS ASSIGNED A SCORE FROM 1 TO 4, IN EACH CATEGORY. WITH A 1 FOR THE LOWEST PERCENTAGES AND A 4 FOR THE HIGHEST PERCENTAGES. THE TRANSIT NEED INDEX IS EQUAL TO THE SUM OF THE SCORES FOR ALL FOUR CATEGORIES.

Source: U.S. Census Bureau and SEWRPC.
the City of Burlington. The remainder of the county has moderate to low transit needs.

Employment Characteristics
Map 3 displays employment density in 2000 by U. S. Public Land Survey quarter-section. The highest employment concentrations in the County are in the
City of Racine, with additional pockets of high employment density found in the City of Burlington and the Villages of Mount Pleasant, Sturtevant, Union Grove, and Waterford.

Major Activity Centers
Transportation needs must also consider the local travel demand generated by major activity centers. Major activity centers can be land uses or facilities that currently attract, or have the potential to attract, significant total person or transit person trips. Seven types of major activity centers were considered for this Coordination Plan:

- Hospitals, Medical Centers, or Clinics with 10 or more physicians
- Job Resource Centers
- Major Commercial Areas (areas with more than 3,500 jobs in the office or service sectors, or more than 2,000 jobs in the retail trade sector)
- Major Employers with 100 or More Employees
- Major Institutions of Higher Education (the main campus of all traditional four-year colleges and universities, and the main location of public technical colleges)
- Residential Facilities for Seniors, People with Disabilities, and Low-Income Families
- Senior Centers and Senior Meal Sites

Map 4 shows their locations. Many of these activity centers are located within the City of Racine. The City of Burlington, and the Villages of Mount Pleasant, Sturtevant, and Waterford, also have several activity centers. A small number of activity centers are also located throughout the County.

*An individual, such as someone who is a senior and lives in a low-income household, may be represented in more than one Population Group.

^Includes persons residing in households with a total family income less than 200 percent of the federal poverty level.

The definition of “disabled persons” varied for the 1990, 2000, and 2010 Census. For the 1990 Census, disabled persons included those persons age 15 and older having a mobility limitation if they had a health condition which made it difficult to go outside the home alone for such activities as visiting the doctor’s office. For the 2000 Census, disabled persons included those persons age 16 and older having a physical, mental, or emotional condition that made it difficult to go outside the home to shop or visit a doctor’s office. For the 2010 Census, disabled persons included those persons age 15 or older who had serious difficulty living independently or a serious sensory, cognitive, or ambulatory disability.

III. CURRENT TRANSPORTATION SERVICES

Racine County is served by a number of transportation providers, ranging from City of Racine’s Belle Urban System, a traditional urban public transit system with large buses operating over fixed routes, to volunteer organizations that serve individuals by providing rides in private automobiles.

Table 2 lists the major transportation providers currently serving Racine County, and identifies the type of service they provide, their service area, their hours of operation, and their funding sources in addition to passenger fares. The first section of the table lists the services that are available to the general public and the second section lists the services that are primarily aimed at serving special population groups, or “human services transportation”.

Transportation Services for the General Public
The principal transportation services for the general public provided in Racine County include:

- The Belle Urban System, operated by the City of Racine, is a publicly-funded urban bus operation that runs fixed routes serving the City of Racine and portions of the Villages of Caledonia, Mount Pleasant, and Sturtevant. The Belle Urban System also provides paratransit service to serve the travel needs of disabled individuals through the Dial-A-Ride Transportation paratransit system.
- Racine County operates two flexible-route services; one cross-county route connecting Burlington, Union Grove, and Sturtevant to the City of Racine called Racine County Link, and another route within the City of Burlington called SPARC. SPARC is targeted to seniors, but is available to the general public if space is available on the vehicle.
- Amtrak operates an intercity passenger train, the Hiawatha route, between Milwaukee and Chicago, with one stop in the Village of Sturtevant.
- Wisconsin Coach Lines, Inc. operates one publicly-funded route which provides commuter-oriented express bus service between downtown Milwaukee and the Cities of Racine and Kenosha. The City of Racine contracts for the service and acts as the public applicant and grantee for the State urban mass-transit operating assistance funds used to subsidize the service.
- A few private-for-profit transportation agencies also provide services to the general public, including the intercity bus service provided by Coach USA.

Human Services Transportation
Other transportation services in the County are primarily aimed at serving the human services transportation needs of special population groups, including the elderly, the disabled, low-income persons, or veterans. Some of the major human services transportation providers include:

- Racine County Human Services provides an advance reservation door-to-door service for persons certified as transportation handicapped outside the Belle Urban System service area, and a subscription door-to-door service for employment transportation of developmentally disabled persons throughout Racine County. The County contracts with First Transit, Inc., for both services.
- Goodwill Industries provides door-to-door subscription service for individuals that participate in Goodwill programs.
- Racine County Opportunity Center provides door-to-door subscription service for individuals that participate in the Center’s programs.
- The remaining transportation services operated within the County are mostly private-for-profit services that focus on providing transportation for medical appointments within Racine County and to surrounding counties.

IV. ASSESSMENT OF TRANSPORTATION SERVICES AND IDENTIFICATION OF UNMET TRANSPORTATION NEEDS

Although some transportation needs can be understood by examining how current transportation providers meet the needs identified in Census data, maps, and other sources of demographic data, many of the needs can only be understood through direct dialogue and communication from agencies and individuals that provide or rely on transportation services. A wide range of individuals and agencies with an interest in transportation in the Region and County were invited to participate in a meeting to assist in the development of the Coordination Plan (see Appendices A and B). At the meeting, Commission staff presented maps and data similar to those presented in the first three sections of this Coordination Plan. The meeting included participants from across the Region, who were divided into fourteen small groups of six to eight people each. Groups were assigned so that each group would have members from multiple counties in the Region.

The small groups went through an evaluation exercise in which they assessed how well current transportation services meet the need of residents to travel between counties in the Region. This evaluation of existing services was based on: area served; days and hours of operation; fares; eligibility requirements for the service; vehicle accessibility for wheelchairs; customer service; reservation wait time; and ease of finding information on services. Following this task, they were asked to use the results of their assessment to guide the development of a list of unmet transportation needs.

A summary of the key findings of the small group regional assessment and the identification of unmet regional transportation needs appears below in no particular order.

Unmet Needs for Travel between Counties

- Lack of coordination in the distribution of information on existing services across the Region.

- Limited transportation options between counties for travel to medical centers, including veterans traveling to Veterans Administration medical facilities in Milwaukee and Northern Illinois.

- Lack of public transit or other transportation services connecting unemployed or underemployed individuals to opportunities in suburban employment areas and connecting businesses to potential employees.

- Lack of a regional transit authority to provide and coordinate transit and paratransit services across county borders.

- Lack of coordination between transit agencies on fares and service hours, increasing customer inconvenience.

- Lack of transportation services for travel from suburb to suburb.

- Limited coordination between paratransit services in adjacent counties.

- Lack of eligibility reciprocity for county-managed human services transportation programs in the Region.

- Lack of coordination between the implementation of the Region’s transportation plan and entities involved in economic development in the Region.

The meeting also addressed travel needs within Racine County. During the meeting, a second set of small group discussions occurred, where participants sat at a table with other attendees from the same county to perform a similar assessment of how well current services meet the needs of residents within the County. A summary of the key findings of the assessment and the identification of unmet regional transportation needs from both meetings appears below in no particular order.

Unmet Needs for Travel within Racine County

- Lack of a dedicated funding source separate from the property tax levy to provide the level of financial assistance necessary to address existing and future
public transportation needs in the County. In recent years, state and federal funding, which provides the majority of the subsidy for transit services, has been decreasing. Since 2006, the State has imposed limits on the amount that local property tax levies can increase, while shared revenue from the state to cities continues to decrease. The levy limits have placed significant pressure on local budgets.

- Lack of late night and adequate weekend service hours for the Belle Urban System to ensure job access for potential second and third shift employees.

- Lack of coordination in the distribution of information on the available transportation services. There is no directory or contact person that can provide the public with comprehensive information on all transportation options.

- Limited transportation options in the western portion of the County, especially for individuals who are not eligible for the County demand-response service for transportation-handicapped persons. There is no longer a taxicab service in the City of Burlington and the fares of private-for-profit transportation providers are expensive for non-Medicaid-eligible individuals. For example, some individuals who do not live in the Belle Urban System service area and need regular transportation for dialysis or cancer treatments have difficulty finding an affordable service.

- Users of the County demand-response service for the transportation-handicapped regularly have to schedule trips many days in advance of when service is needed.

- Lack of a taxicab provider in the City of Racine that can serve trips 24-hours-a-day, seven-days-a-week with little to no advance reservation time requirement for scheduling.

- Lack of a service to return patients to their residences if they are released from the hospital between 5 p.m. and 5 a.m.
V. STRATEGIES TO ADDRESS UNMET NEEDS

This Coordination Plan presents two types of strategies for Racine County to consider in addressing the identified transportation needs in the County. The first section is a list of Federal and State funding programs that support public transportation services. The second section includes strategies that were identified by participants at the meeting for the development of the Coordination Plan.

Financial Strategies: Federal and State Funding Programs

Descriptions of the Federal and State programs that provide financial assistance for public transportation services and which could be used in Racine County are illustrated in Tables 3 and 4.

Table 3
FEDERAL TRANSIT ADMINISTRATION FUNDING PROGRAMS ADMINISTERED BY THE WISCONSIN DEPARTMENT OF TRANSPORTATION WHICH COULD BE USED IN RACINE COUNTY*

</tbody>
</table>

* Due to the new federal transportation reauthorization bill (MAP-21) enacted in July 2012, certain programs listed in this table will not be available after 2013. FY 2012 funds remain from the previous transportation act to provide funding for Sections 5316 and 5317 in 2013, but following that granting process, JARC (Section 5316) funding may no longer be available to non-profits (as that program has been rolled into Sections 5307 and 5311) and New Freedom (Section 5317) is combined with Section 5310 to create the new Enhanced Mobility of Seniors and Individuals with Disabilities program. Under MAP-21, Section 5310 funding is available to local public bodies in addition to non-profits.

More information on Federal and State funding programs can be found on WisDOT’s website ([http://www.dot.wisconsin.gov/localgov/transit/index.htm](http://www.dot.wisconsin.gov/localgov/transit/index.htm)). In addition to the Federal and State programs shown in Tables 3 and 4, which are aimed primarily at providing transportation services, various human-service funding programs and block grant programs can be used for transportation services.

Prioritized Strategies to Address Unmet Needs
Attendees of the Coordination Planning meeting were asked to consider strategies to address the unmet needs that they had already identified. At the meeting, Commission staff provided information on strategies proposed in the 2008 Coordination Plans to illustrate potential strategies to improve transportation service.

Small groups were asked to use their previously created list of unmet transportation needs for the Region to guide their development of strategies, and then each group informed the remainder of the participants at the meeting of their suggested strategies. After some discussion, participants were asked to vote on their preferred strategies to address the Region’s unmet transportation needs, which led to the creation of the following prioritized list of strategies.

**Strategies for Addressing Unmet Travel Needs between Counties**

1. Establish a regional transit authority with a dedicated funding source.

2. Create a staffed call center for information about all public transportation and human services transportation. This call center could be built from the existing Southeast Wisconsin Transit Systems marketing partnership, and coordinated with an effort to increase education and outreach to the public.
3. Until a regional transit authority is established, improve and strengthen services that cross county lines to increase job access transportation.

4. Increase non-urgent medical transportation options for individuals not eligible for Medicaid.

5. Increase the availability of Demand Response services outside of Milwaukee, Ozaukee, and Washington Counties.

6. Consolidate functions and share resources among transportation providers. Some potential areas to share or consolidate include:
   a. Consolidated call center for trip reservations or scheduling
   b. Shared operating or support services, such as software, driver training, or drug testing programs

7. In lieu of a regional transit authority, the State should develop rules, policies, and procedures to guide the development and operation of local transit systems, which local transit systems would be required to follow.

8. Require memorandums of agreement or understanding between transit agencies to provide service across county borders as a stipulation for receiving state transit assistance.

9. Create a risk pool for specialized medical transportation providers to address cost issues with liability insurance.

10. Increase funding for mobility managers to assist them in coordinating across county lines, and create a liaison to coordinate all mobility managers in the region.

11. Establish consistent fare structures, eligibility requirements, and service hours for similar types of service in all counties. This will increase clarity and understanding by the public concerning services and how to use them.

12. Purchase new vehicles for transportation services, such as accessible vans or buses for wheelchair passengers.

Participants also developed a list of strategies for addressing unmet needs for travel within Racine County. At the meeting, a second set of small group discussions occurred, where participants sat at a table with other attendees from the same county to follow up their identification of unmet needs with a list of strategies to address those needs. That discussion resulted in this prioritized list of strategies that the participants believed were appropriate for Racine County.

**Strategies for Addressing Unmet Travel Needs within Racine County**

1. Promote increases in local, State, and Federal funding levels for transportation programs, and coordinate program eligibility and reporting requirements to improve service availability and convenience. Develop strategies to obtain funding for projects that would improve or increase the transportation services available in the County.

2. Improve the availability and convenience of existing transportation services. Some of the improvements that were identified include:
   a. Provide more frequent service on the bus routes of the Belle Urban System to reduce wait times for patrons.
   b. Expand the service area and hours of operation for the Belle Urban System to improve transit access to employment locations.

3. Work with hospitals to provide twenty-four hour service for patients to return to their residences following treatment, perhaps by contracting with an existing specialized medical transportation provider.

4. Study ways for the City of Racine or County to encourage a private taxi cab operator to provide service to the City or County.

5. Improve access to information on the available transportation services. Some
ways to improve the dissemination of information include:
   a. Implement a travel training program for potential users of the fixed-route services of the Belle Urban System.
   b. Train social workers or counselors who work with potential users to educate them about the available transit services.
   c. Create a clearinghouse or centralized information source for information on all transit services. Example could include 211 community information and 511 traveler information services.
   d. Create an online directory of transportation providers.

6. Continue to fund a mobility manager position with the County who:
   a. Assists in coordinating transportation services.
   b. Promotes the availability of transportation services.
   c. Gathers and analyzes data to evaluate a variety of transportation options for elderly, disabled, and low-income individuals.
   d. Researches “best practices” for mobility management techniques to coordinate services and other resources among transportation agencies.

7. Expand County-wide transportation services. Examples include:
   a. Establish subsidized shared-ride taxi services to provide demand-responsive transit service where feasible, such as in the Burlington-Waterford area.
   b. Expand volunteer driver/escort programs.
VI. PLAN IMPLEMENTATION

Attendees of the Coordination Planning meeting were also asked to consider who should be responsible for implementing each of the identified strategies. Some of the potential responsible parties that the Racine County participants identified are listed below.

**Racine County**
- Implementation of a County-wide shared-ride taxi service open to the general public or expansion of volunteer driver programs would be the responsibility of the County.
- Expand service to Milwaukee County from Racine County to provide better access to employment and resources at the Regional Medical Center and Downtown Milwaukee.
- Consider appointing a transportation coordinating committee that would study how to implement the identified coordination strategies and recommend actions to County officials.

**City of Racine**
- Improve the convenience, frequency, and service hours of transportation service. The City would be responsible for implementing service improvements to the Belle Urban System.

**Mobility Manager**
- Promote increases in local, State, and Federal funding levels for transportation programs and better coordination of program eligibility and reporting requirements to improve service availability and convenience. Develop strategies to obtain funding for projects that would improve or increase the transportation services available in the County.
- Work with hospitals in the County to provide patients with journey home following their treatment.
- Improve access to information on the available transportation services by creating a clearinghouse for information on all transit services and implementing a travel training program.

**All Transportation Providers**
- Improve access to information on the transportation services provided.

**All Parties**
- All interested parties, including the County, and its municipalities, should advocate for increased transit funding, including State funding and the establishment of dedicated funding for public transportation.

Albert A. Beck ................................................................. Principal Planner, SEWRPC
Eric Lynde ........................................................................ Senior Planner, SEWRPC
Kevin Muhs ................................................................. Planner, SEWRPC

WELCOME AND INTRODUCTIONS
Mr. Muhs welcomed participants and asked attendees to introduce themselves and the agency they represented to their fellow attendees at their table. The participants had been assigned to one of fourteen small groups of six to eight people for the morning’s discussion of regional transportation. Each group had participants from multiple counties, to provide the widest perspective possible at each table. Mr. Muhs then explained the agenda for the meeting:

1. Overview of the coordination process
2. Information on existing and future funding programs and opportunities
3. Small group discussions addressing regional transportation
4. Discussion of the results of the small groups, with selection of regional prioritized strategies
5. Small group discussions addressing travel within each county

OVERVIEW OF THE COORDINATION PROCESS
Mr. Muhs described the federal requirements for project funding and coordination plans. He also described the Wisconsin Department of Transportation (WisDOT) coordinated planning process and the need for a regional planning approach.

INFORMATION ON EXISTING AND FUTURE FUNDING PROGRAMS
Mr. Miller and Ms. Foss of WisDOT outlined the various opportunities for funding assistance from the federal and state governments for public and non-profit operators. Mr. Miller described current funding opportunities available through federal Section 5316 funds and state Wisconsin Employment Transportation Assistance Program (WETAP) funds. Mr. Miller indicated that some programs may be changing as more guidance is received from the Federal Transit Administration regarding the recently passed transportation reauthorization bill, Moving Ahead for Progress in the 21st Century. Ms. Foss described funding opportunities for specialized medical transportation providers through the federal Section 5310 and 5317 programs.

SMALL GROUP DISCUSSION ADDRESSING REGIONAL TRANSPORTATION
Mr. Muhs introduced the small group discussion packet that assisted groups in their analysis of transportation services that crossed county borders, describing the inventories of principal transportation providers that cross county borders, including public, private, and non-profit providers of human services transportation and providers of transportation for the general public. He then described the other data available to the participants in the packets, including maps of existing public transit, specialized transportation, and paratransit services in the Region. He asked each small group to review the inventory list and provide any corrections or additional information. Following this review, attendees were asked to discuss existing regional transit services within their small group and assess the quality of the services based on eight different service attributes. This assessment guided the groups as they discussed needs that were unmet by existing services and prioritized fulfilling those unmet needs. Finally, each small group was asked to create strategies to address its list of unmet needs. Lists of previous unmet needs and strategies from the 2008 planning effort were provided to each participant to assist in the discussion within each small group.

DISCUSSION OF REGIONAL PRIORITIZED STRATEGIES
Following the completion of their packets by all of the small groups, each group was invited to select a member to discuss the group’s unmet needs and strategies to address those needs. Commission staff recorded these strategies while they were being discussed, and asked the participants to vote (by show of hands) on their top three strategies. The results of this voting process guided the development of a list of prioritized strategies to address the unmet travel needs of the Region. This list of prioritized strategies and a summary of the key findings of the
small group discussions appear in the Public Transit-Human Services Transportation Coordination Plan for each county.

**SMALL GROUP DISCUSSION ADDRESSING TRANSPORTATION WITHIN EACH COUNTY**

Following the selection of prioritized strategies to address regional needs, new small groups were formed to discuss transportation within each county. A similar process was followed as with the previous small groups, with each participant receiving a packet of information to guide the discussion. The small group discussion packet for each county contained an inventory of principal transportation providers within the county, including public, private, and non-profit providers of human services transportation and providers of transportation for the general public. Other information in each packet included population growth of transit dependent populations and maps of existing public transit service areas overlaid over population density, employment density, high transit need areas, and major activity centers. Lists of previous unmet needs and strategies from the 2008 planning effort were also provided to each participant to assist in the discussion within each small group. Small groups were asked to review the list of existing services, assess the quality of the services, create a list of unmet needs, and list strategies to address those unmet needs. Following the completion of those tasks, counties with more than one small group were asked to join together with the other tables discussing the same county to create a prioritized list of strategies for the county.

**WRAP-UP**

After the small group discussions, Mr. Muhs informed participants that a draft plan for each county would be assembled by Commission staff and available for comment. A finalized Public Transit-Human Services Transportation Coordination Plan for each county would be submitted to WisDOT by the end of the year.
