I. INTRODUCTION

The Public Transit – Human Services Transportation Coordination Plan for Waukesha County: 2012, hereafter referred to as the Coordination Plan, is intended to provide a framework to assist community leaders, human services agencies, and public transit agencies in improving public transit and human services transportation in Waukesha County and the County's connections to the Southeastern Wisconsin Region. The Coordination Plan assesses the existing public transit and human services transportation services and needs in the County, identifies unmet needs or service gaps, and presents a prioritized list of strategies to address those needs. By focusing on coordination strategies that use existing resources, the Coordination Plan aims to improve the access of County residents to transportation in a cost-effective manner.

Federal and State Coordination Planning Requirements

The coordination planning process was last undertaken in 2008 in response to the federal requirements in the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU), which was adopted into law in August of 2005. SAFETEA-LU requires that projects selected for funding under three Federal Transit Administration (FTA) programs—the Elderly Individuals and Individuals with Disabilities (Section 5310), Job Access and Reverse Commute (JARC), and New Freedom programs—be “derived from a locally developed public transit-human services transportation coordination plan,” and that the coordination planning process be undertaken every four years.

Passed in July of 2012, the Federal Moving Ahead for Progress in the 21st Century Act (MAP-21) renews some coordinated planning requirements from SAFETEA-LU, but only mandates that projects selected for funding under the renamed Enhanced Mobility of Seniors and Individuals with Disabilities program (Section 5310) be included in the coordinated planning process. However, the Wisconsin Department of Transportation (WisDOT) will allocate additional funds from SAFETEA-LU in 2013, so previous requirements are still in effect for that year.

Several agencies and organizations in Waukesha County have received funding under the Section

5310, JARC, and New Freedom programs in the past. The Coordination Plan will help ensure the eligibility of current and future transit projects funded through those programs.

The Coordination Plan includes the following elements required under Federal regulations:

- An assessment of transportation needs for individuals with disabilities, seniors, and people with low incomes;
- An assessment of available transportation services;
- Strategies to address the identified gaps between current services and needs, as well as opportunities to improve efficiencies in service delivery; and
- Priorities for implementing strategies.

Role of the Southeastern Wisconsin Regional Planning Commission

The Regional Planning Commission, at the request of WisDOT, and with guidance and input from human services agencies and public and private transit operators in each county, has facilitated the planning process and prepared the maps, tables, and inventories for the Coordination Plans for each of the seven counties in the Region. For the Waukesha County Coordination Plan, Commission staff invited a wide range of stakeholders from Waukesha County and the Region to a meeting to identify the unmet transportation needs in the Region and in each of the seven counties, and develop strategies to address the needs. The invitation list, meeting records, and attendance lists for this meeting are documented in Appendices A and B.

In addition to this Coordination plan, the Commission also periodically prepares the long-range (25-30 years) transportation system plan for the seven-county southeastern Wisconsin Region and short-range (5 years) transit development plans for each of the Region's public transit systems. The year 2035 regional transportation system plan for southeastern Wisconsin, adopted in 2006 and reaffirmed in 2010, is intended to provide a vision for, and guide to, transportation system development in the Region into the future. The short-range transit service plans address current transit service issues and needs, and represent an initial stage of

implementation of the recommendations of the regional transportation system plan. A countywide public transit service plan for Waukesha County was last prepared by the Commission in 2001, recommended service alternatives for 2002-2006. A transit service development plan for the City of Waukesha is nearly complete, covering 2013-2017. The County has requested that the Commission prepare a new transit system development plan for

the County. The plan will evaluate existing transit services, develop service objectives and standards, identify and evaluate alternative service plans, and propose a recommended service plan for implementation. The unmet transit service needs identified for the 2012 Waukesha County Coordination Plan will also be considered in the creation of this new transit development plan for the County.

II. TRANSPORTATION NEEDS OF INDIVIDUALS WITH DISABILITIES, SENIORS, AND PEOPLE WITH LOW INCOMES

General Population Characteristics

Waukesha County is located in southeastern Wisconsin, bordered by Jefferson County to the west, Dodge and Washington Counties to the north, Milwaukee County to the east, and Racine and Walworth Counties to the south. The County's urban area includes the municipalities on the eastern edge that border Milwaukee County, and stretches westward to the City of Oconomowoc along Interstate Highway 94 and State Highway 16, including the City of Waukesha. The remainder of the County is predominantly rural. Waukesha County's population in 2011 was 390,700 persons, according to the U.S. Census Bureau. Of that total, the combined population of the Cities of Brookfield, Muskego, New Berlin, and Waukesha, and the Village of Menomonee Falls made up 208,400 persons, or about 53 percent. In the rest of Waukesha County, smaller concentrations of population exist in the Cities of Delafield, Oconomowoc, and Pewaukee and the Villages of Hartland, Pewaukee, and Sussex. Map 1 shows the population density in 2010 by U.S. Public Land Survey quarter-section.

Waukesha County's population has grown rapidly since 1980. Between 2000 and 2010, the County's population grew an additional 8 percent from approximately 306,800 to 389,900 persons, respectively. The rapid growth is expected to continue through 2020. As Figure 1 displays, the Waukesha County population is projected to reach 417,400 persons by the year 2020.

Figure 1

WAUKESHA COUNTY ACTUAL AND PROJECTED TOTAL POPULATION

Transit-Dependent Population Characteristics

Certain segments of the population may be expected to have a greater dependence on, and make more extensive use of, public transit than the population as a whole because they have historically had more limited access to the automobile as a mode of travel than the population in general. Four such "transit-dependent" population groups were identified for this plan:

- Seniors (ages 75 and older),
- Persons in low-income households,
- Disabled individuals, and
- Households with no vehicle available.

Table 1 displays the historic population of these groups in the study area in 1990, 2000, and 2010. The information in the table leads to the following observations:

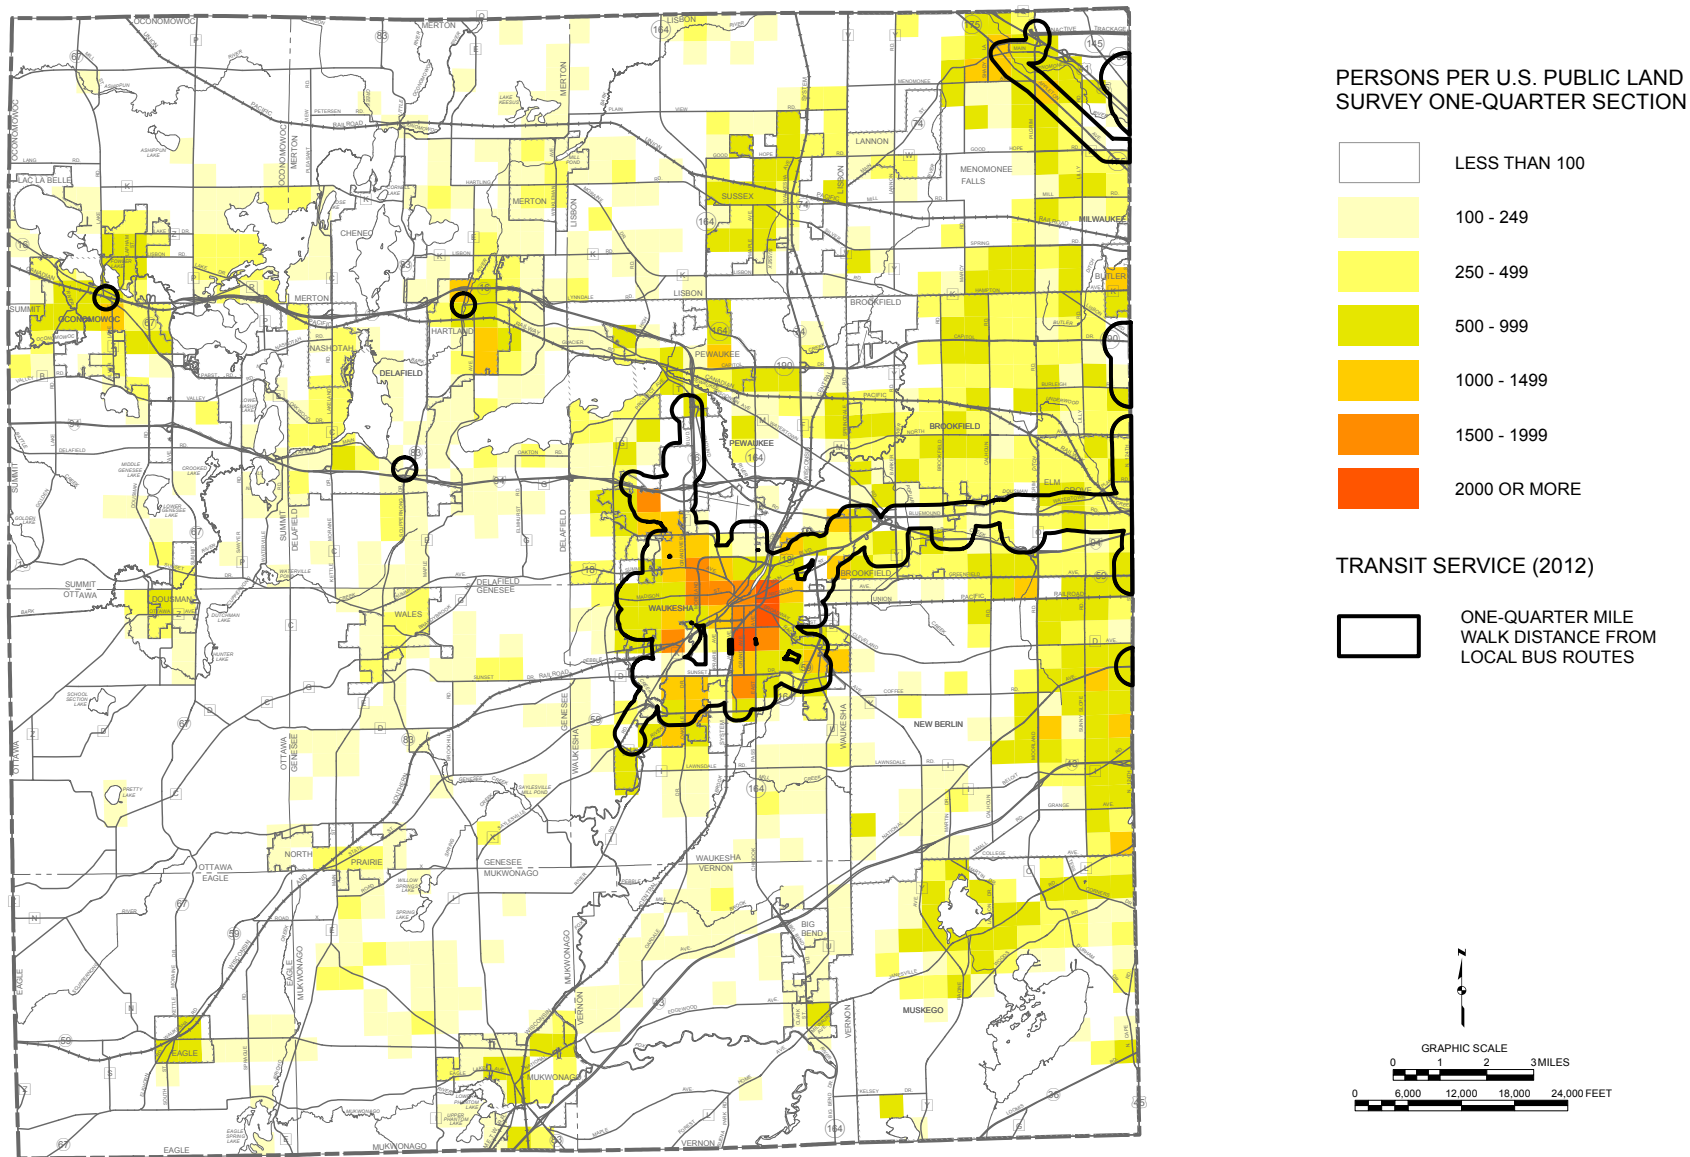

- Persons in low-income households account for the largest share of the transit-dependent population in the County at about 12 percent of the total population. Disabled persons are the next largest transit-dependent population group at about 8 percent of the County's residents. 6 percent of the population is at least 75 years of age, and about 4 percent of households have no vehicle available.
- Between 2000 and 2010, all four transit-dependent population groups increased in absolute numbers, while only persons in low-income households and disabled persons increase in share of the population.

Data from the 2010 Census were used to identify areas in Waukesha County where transit needs are highest. Map 2 displays Census block groups within the County with the highest concentration of transit-dependent populations. These may be considered as potential priority areas for the provision of transit service.

In 2010, the high concentrations of transit-dependent persons lived in the Cities of Waukesha, Brookfield, and New Berlin, as well as the Village of Menomonee Falls. Isolated areas of high transit need are also located within the City of Oconomowoc, the Villages of Dousman and Hartland. Transit needs in the rest of Waukesha County were low or moderate.

Map 2

TRANSIT NEEDS INDEX FOR WAUKESHA COUNTY: 2009

NOTE:

THE TRANSIT NEED INDEX IS CALCULATED BY RANKING CENSUS BLOCK GROUPS BASED ON THE PERCENT OF TOTAL POPULATION OR HOUSEHOLDS IN FOUR CATEGORIES: ELDERLY PERSONS (75 AND OLDER), PERSONS IN LOW-INCOME HOUSEHOLDS, DISABLED PERSONS, AND HOUSEHOLDS WITH NO VEHICLE AVAILABLE. EACH RANKED BLOCK GROUP IS ASSIGNED A SCORE FROM 1 TO 4, IN EACH CATEGORY, WITH A 1 FOR THE LOWEST PERCENTAGES AND A 4 FOR THE HIGHEST PERCENTAGES. THE TRANSIT NEED INDEX IS EQUAL TO THE SUM OF THE SCORES FOR ALL FOUR CATEGORIES.

TRANSIT NEEDS INDEX LEVEL

TRANSIT SERVICE (2012)

Table 1

TRENDS IN TRANSIT-DEPENDENT POPULATION GROUPS IN WAUKESHA COUNTY

| Transit-Dependent Population Group | 1990 | | 2000 | | 2010 | |
|---|---------|--------------------------------------|---------|--------------------------------------|---------|--------------------------------------|
| | Number | % of Total Population/ Households | Number | % of Total Population/ Households | Number | % of Total Population/ Households |
| Seniors (75 and older) | 12,240 | 4 | 19,980 | 6 | 25,286 | 6 |
| Persons in Low-Income Households ^a | 31,395 | 10 | 32,997 | 9 | 48,144 | 12 |
| Disabled Persons ^b | 5,164 | 2 | 12,978 | 4 | 32,258 | 8 |
| Households with No Vehicle Available | 3,969 | 4 | 5,689 | 4 | 5,956 | 4 |
| Total County Population | 304,715 | -- | 360,767 | -- | 389,891 | -- |
| Total Number of Households | 105,990 | -- | 135,229 | -- | 151,161 | -- |

^aAn individual, such as someone who is a senior and lives in a low-income household, may be represented in more than one Population Group.

^bIncludes persons residing in households with a total family income less than 200 percent of the federal poverty level.

^cThe definition of "disabled persons" varied for the 1990, 2000, and 2010 Census. For the 1990 Census, disabled persons included those persons age 15 and older having a mobility limitation if they had a health condition which made it difficult to go outside the home alone for such activities as visiting the doctor's office. For the 2000 Census, disabled persons included those persons age 16 and older having a physical, mental, or emotional condition that made it difficult to go outside the home to shop or visit a doctor's office. For the 2010 Census, disabled persons included those persons age 15 or older who had serious difficulty living independently or a serious sensory, cognitive, or ambulatory disability.

Employment Characteristics

Map 3 displays employment density in 2000 by U. S. Public Land Survey quarter-section. The highest employment concentrations in the County are in the Cities Brookfield, New Berlin, and Waukesha, and the Villages of Butler and Menomonee Falls.

Major Activity Centers

Transportation needs must also consider the local travel demand generated by major activity centers. Major activity centers can be land uses or facilities that currently attract, or have the potential to attract, significant total person or transit person trips. Seven types of major activity centers were considered for this Coordination Plan:

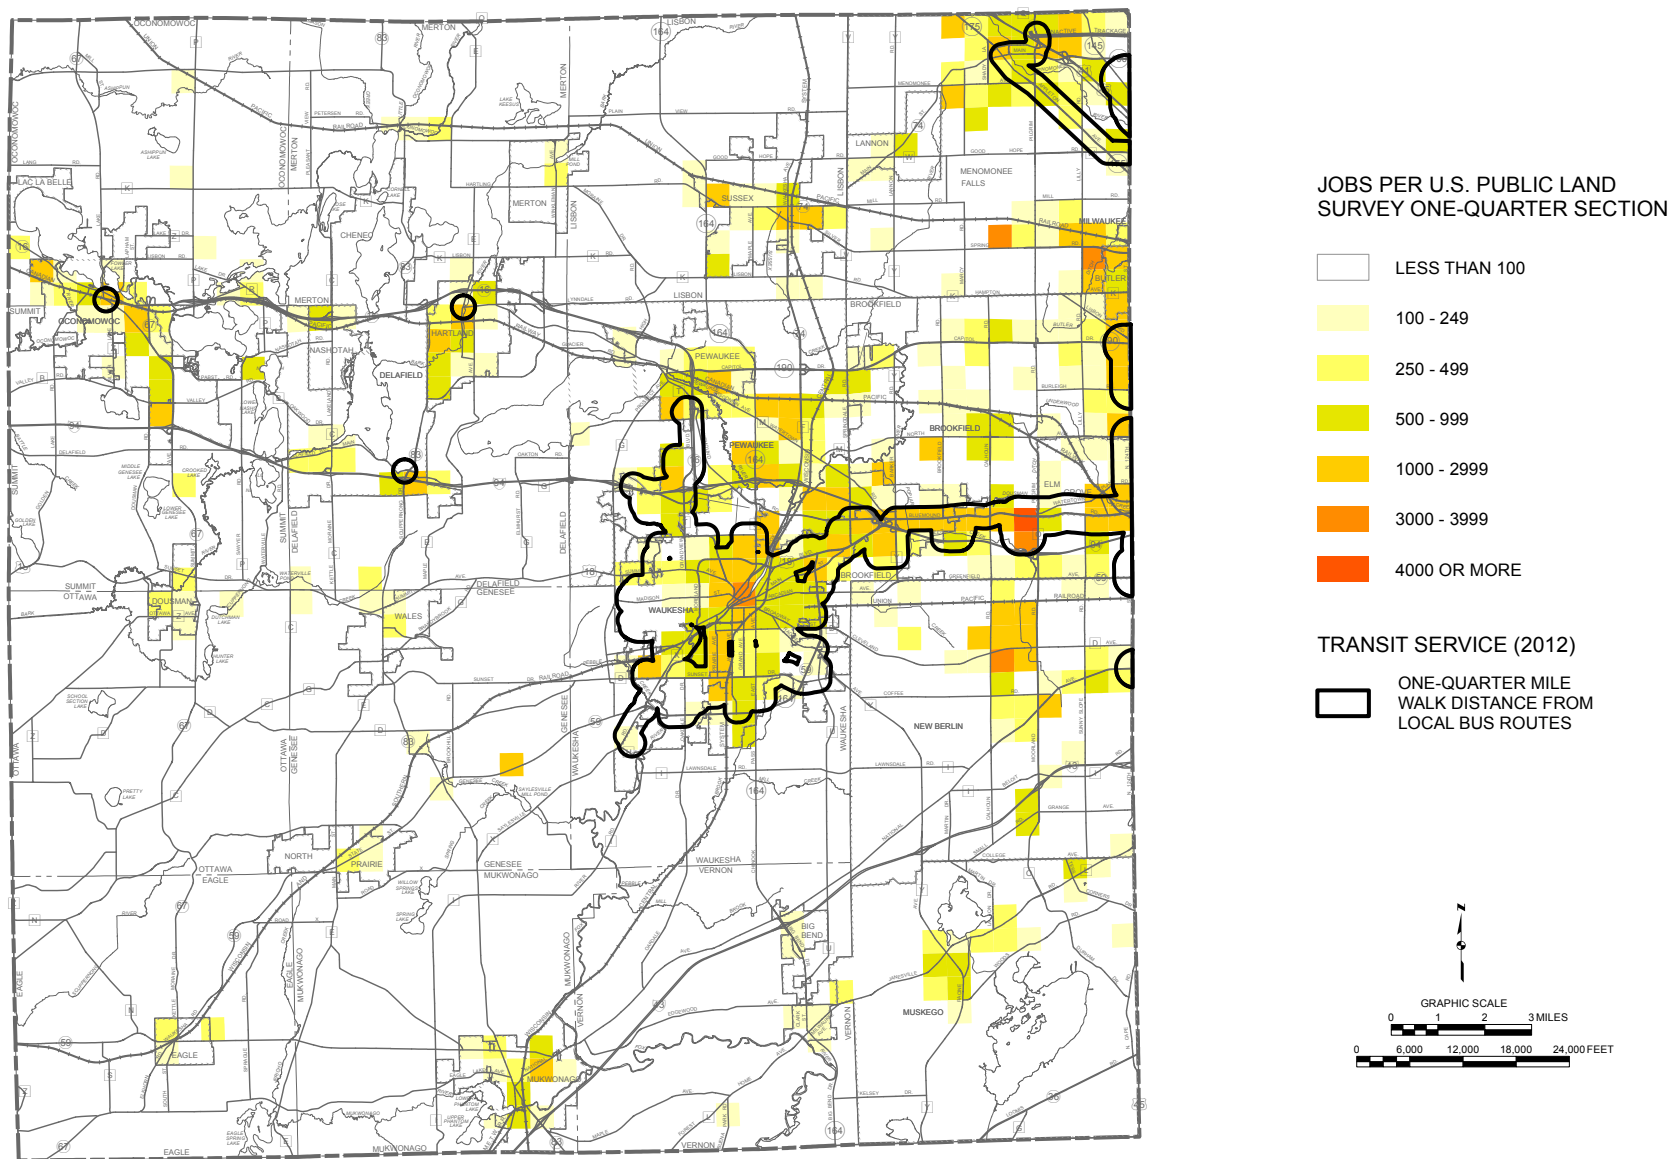

- Hospitals, Medical Centers, or Clinics with 10 or more physicians
- Job Resource Centers

- Major Commercial Areas (areas with more than 3,500 jobs in the office or service sectors, or more than 2,000 jobs in the retail trade sector)
- Major Employers with 100 or More Employees
- Major Institutions of Higher Education (the main campus of all traditional four-year colleges and universities, and the main location of public technical colleges)
- Residential Facilities for Seniors, People with Disabilities, and Low-Income Families
- Senior Centers and Senior Meal Sites

Map 4 shows their locations. Most of the activity centers are in the City of Waukesha, and the eastern portion of the County.

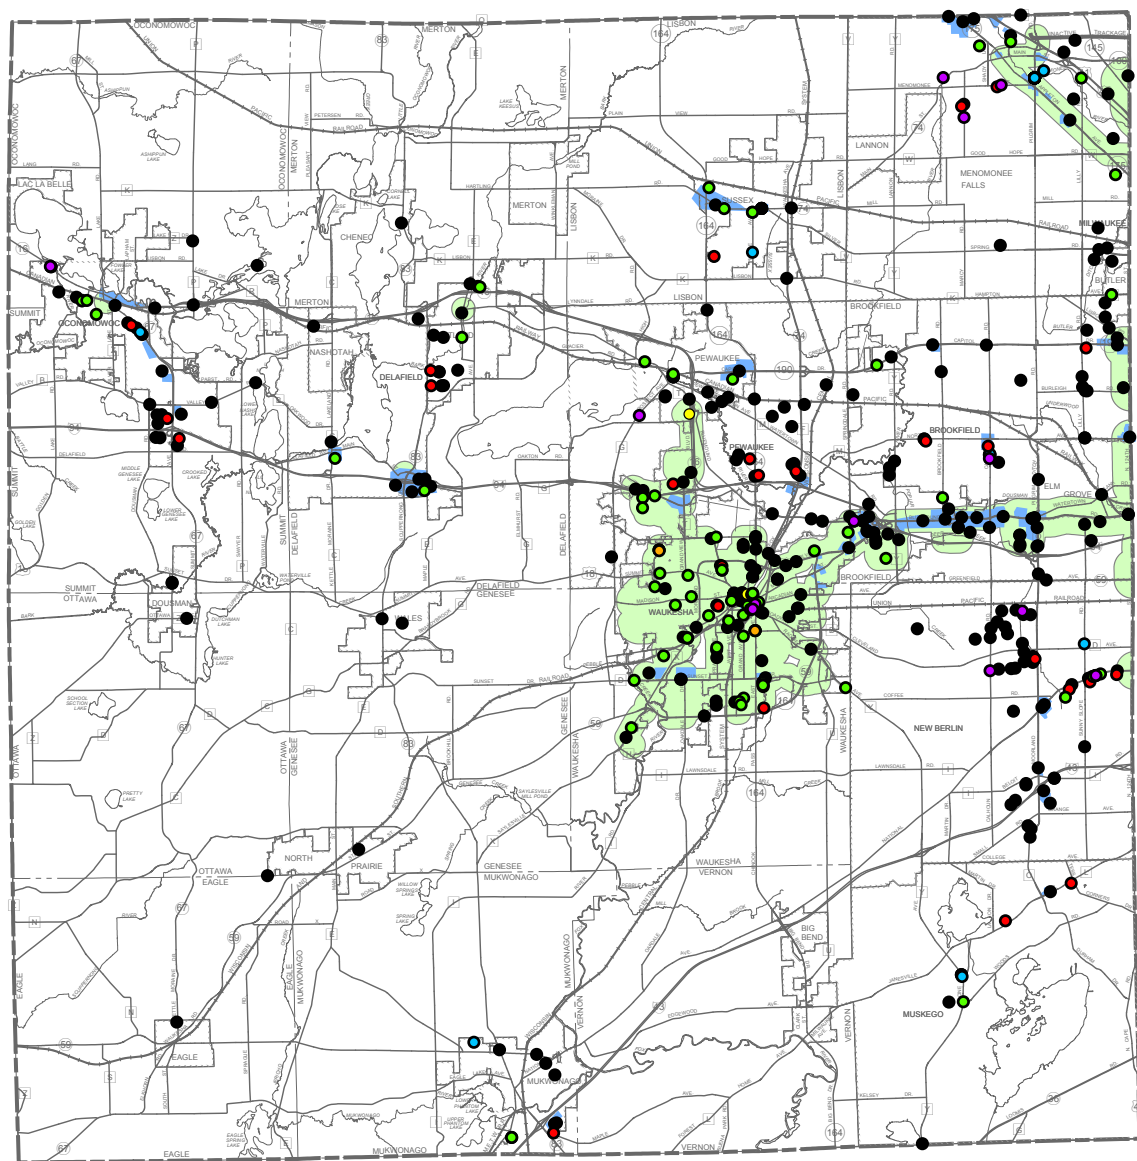

Map 3

EMPLOYMENT DENSITY BY U.S. PUBLIC LAND SURVEY QUARTER-SECTION IN WAUKESHA COUNTY: 2000

Map 4

MAJOR ACTIVITY CENTERS IN WAUKESHA COUNTY: 2012

MAJOR ACTIVITY CENTERS

- ADULT DAY CENTERS
- JOB RESOURCE CENTERS
- MAJOR EMPLOYERS WITH MORE THAN 100 EMPLOYEES
- MAJOR HOSPITALS, MEDICAL CENTERS, OR CLINICS
- MAJOR INSTITUTIONS OF HIGHER EDUCATION
- SENIOR CENTERS AND SENIOR MEAL SITES
- RESIDENTIAL FACILITIES FOR SENIORS, PEOPLE WITH DISABILITIES, AND LOW-INCOME HOUSEHOLDS
- MAJOR COMMERCIAL AREAS

TRANSIT SERVICE (2012)

- ONE-QUARTER MILE WALK DISTANCE FROM LOCAL BUS ROUTES

a) MANY DISABLED INDIVIDUALS LIVE INDEPENDENTLY AND NOT IN SPECIAL HOUSING FACILITIES. THE DISABLED POPULATION IS FOUND IN ALL PARTS OF THE COUNTY.

III. CURRENT TRANSPORTATION SERVICES

Waukesha County is served by a number of transportation providers, ranging in size from Waukesha Metro Transit, a traditional urban public transit system with large buses operating over fixed routes, to volunteer organizations that serve individuals by providing rides in private automobiles.

Table 2 lists the major transportation providers currently serving Waukesha County, and identifies the type of service they provide, their service area, their hours of operation, and their funding sources in addition to passenger fares. The first section of the table lists the services that are available to the general public and the second section lists the services that are primarily aimed at serving special population groups, or “human services transportation”.

Transportation Services for the General Public

The principal transportation services for the general public provided in Waukesha County include:

- Waukesha Metro Transit, operated by the City of Waukesha, is a publicly-funded urban bus operation that runs fixed routes serving the City of Waukesha and portions of adjacent communities. Waukesha Metro Transit also provides paratransit service to serve the travel needs of disabled individuals through the Metrolift paratransit system.
- Waukesha County Transit System provides a publicly-funded bus service primarily to serve persons commuting between Waukesha and Milwaukee Counties. The County contracts with two public transit operators, the Milwaukee County Transit System and Waukesha Metro Transit, and one private transit company, Wisconsin Coach Lines, Inc, to operate the bus services into Milwaukee County. Paratransit service is operated by Transit Express to serve trips made within one mile of the Wisconsin Coach Lines, Inc., Route 901 and by Waukesha Metro Transit and the Milwaukee County Transit System for trips made within $\frac{3}{4}$ mile of Routes 1 and 10, respectively.

Several private for-profit transportation companies also provide services to the general public, including the intercity bus service provided by Badger Bus, Inc., and Coach USA; and taxicab service provided by several private companies in Waukesha County.

Human Services Transportation

Other transportation services in the County are primarily aimed at serving the human services transportation needs of special population groups, including seniors, the disabled, low-income persons, or veterans. Some of the major human services transportation providers include:

- Waukesha County Aging and Disability Resource Center provides a door-through-door transportation service – Ride-Line – for seniors or disabled individuals. Vehicles and drivers are provided by Meda-Care Vans of Waukesha, Inc.
- Waukesha County Aging and Disability Resource Center also sponsors a shared-fare taxi program that subsidizes the fares for eligible seniors and disabled individuals. Nine taxi providers operating in communities throughout the County participate in this program.
- Waukesha County Department of Health and Human Services provides advance reservation transportation service for clients of their services. Volunteers provide their own vehicles.
- There are several other private-non-profit organizations that provide transportation to individuals that participate in their programs or attend activities or appointments at their centers.
- The remaining transportation services operated within the County provide transportation for a variety of purposes, including medical appointments, within Waukesha County and to surrounding counties.

IV. ASSESSMENT OF TRANSPORTATION SERVICES AND IDENTIFICATION OF UNMET TRANSPORTATION NEEDS

Although some transportation needs can be understood by examining how current transportation providers meet the needs identified in Census data, maps, and other sources of demographic data, many of the needs can only be understood through direct dialogue and communication from agencies and individuals that provide or rely on transportation services. A wide range of individuals and agencies with an interest in transportation in the Region and County were invited to participate in a meeting to assist in the development of the Coordination Plan (see Appendices A and B). At the meeting, Commission staff presented maps and data similar to those presented in the first three sections of this Coordination Plan. The meeting included participants from across the Region, who were divided into fourteen small groups of six to eight people each. Groups were assigned so that each group would have members from multiple counties in the Region.

The small groups went through an evaluation exercise in which they assessed how well current transportation services meet the need of residents to travel between counties in the Region. This evaluation of existing services was based on: area served; days and hours of operation; fares; eligibility requirements for the service; vehicle accessibility for wheelchairs; customer service; reservation wait time; and ease of finding information on services. Following this task, they were asked to use the results of their assessment to guide the development of a list of unmet transportation needs.

A summary of the key findings of the small group regional assessment and the identification of unmet regional transportation needs appears below in no particular order.

Unmet Needs for Travel between Counties

- Lack of coordination in the distribution of information on existing services across the Region.
- Limited transportation options between counties for travel to medical centers, including veterans traveling to Veterans

Administration medical facilities in Milwaukee and Northern Illinois.

- Lack of public transit or other transportation services connecting unemployed or underemployed individuals to opportunities in suburban employment areas and connecting businesses to potential employees.
- Lack of a regional transit authority to provide and coordinate transit and paratransit services across county borders.
- Lack of coordination between transit agencies on fares and service hours, increasing customer inconvenience.
- Lack of transportation services for travel from suburb to suburb.
- Limited coordination between paratransit services in adjacent counties.
- Lack of eligibility reciprocity for county-managed human services transportation programs in the Region.
- Lack of coordination between the implementation of the Region's transportation plan and entities involved in economic development in the Region.

The meeting also addressed travel needs within Waukesha County. During the meeting, a second set of small group discussions occurred, where participants sat at a table with other attendees from the same county to perform a similar assessment of how well current services meet the needs of residents within the County. A summary of the key findings of the assessment and the identification of unmet regional transportation needs from both meetings appears below in no particular order.

Unmet Needs for Travel within Waukesha County

- Need for improving the availability, convenience, safety, and security of

existing public transit services. Areas of need include:

- Expansion of the areas served by and higher frequency of service on the routes of Waukesha Metro Transit and Waukesha County Transit System
- More affordable fares for County and City bus services
- Improved snow removal at bus stops
- Need for more transportation services during weekday evenings and nights, and on weekends to serve second- and third-shift employees, and retail employees.
- Need for an expanded service area for transit that serves the general public, such as a county-wide shared-ride taxi service outside of Waukesha Metro Transit's service area.
- Lack of transportation for non-priority medical trips for non-drivers.
- Lack of understanding by the public of the value of transit and the need for various transportation alternatives.
- Lack of public education on the available transportation options, including how to use them.

V. STRATEGIES TO ADDRESS UNMET NEEDS

This Coordination Plan presents two types of strategies for Waukesha County to consider in addressing the identified transportation needs in the County. The first section is a list of Federal and State funding programs that support public transportation services. The second section includes strategies that were identified by participants at the

meeting for the development of the Coordination Plan.

Financial Strategies: Federal and State Funding Programs

Descriptions of the Federal and State programs that provide financial assistance for public transportation services and which could be used in Waukesha County are illustrated in Tables 3 and 4.

Table 3

FEDERAL TRANSIT ADMINISTRATION FUNDING PROGRAMS ADMINISTERED BY THE WISCONSIN DEPARTMENT OF TRANSPORTATION WHICH COULD BE USED IN WAUKESHA COUNTY^a

| Program | Type | Target rider | Eligible Applicants | Local Share (approx.) | Statewide Funding Level (approx.) | Application Cycle | Notes |
|----------------------------|---------------------|--|---|--|-----------------------------------|---|--|
| Section 5307 | Operating & Capital | Public in urbanized areas (>50,000) | Local public bodies | 50% of project deficit | \$46.7 million | Annual (application released in early fall) | Combined with State aid (s. 85.20) to cover approximately 55% of operating expenses in urbanized areas |
| Section 5309 | Capital | Public | Local public bodies with Urban Public Transit Systems | 20% of total costs | N/A | Capital requests are competitively granted by the FTA | For fixed guideway transit capital investments |
| Section 5310 | Capital | Elderly & Disabled | Primarily non-profits, but can be local public bodies, if non-profit is not readily available | 20% of total costs | \$4.5 million | Biennial (application released in fall) | Combined with State funds (s. 85.22) |
| Section 5311 | Operating & Capital | Public in areas <50,000 in population | Local public bodies | <u>Operating</u> – 50% of project deficit <u>Capital</u> - 20% of total costs | \$15.6 million | Annual (application released in early fall) | Combined with State aid (s. 85.20), to cover approximately 60% of operating expenses in non-urbanized areas |
| Section 5316 (JARC) | Operating & Capital | Low-income workers & reverse commuters | Local public bodies, non-profits, metropolitan planning organizations | <u>Operating</u> – 50% of project deficit <u>Capital</u> - 25% of total costs | N/A | Annual (WETAP application released in early fall) | Combined with State funds (TEAM, ETA) under the WETAP program, which reduces the local share to 25% of operating project costs |
| Section 5317 (New Freedom) | Operating & Capital | Individuals with Disabilities | Local public bodies, non-profits, and private operators of public transit services | 50% of project deficit | N/A | Annual (application released in early fall) | Combined with State Division of Vocational Rehabilitation Funds to lower local share of rural projects |
| Section 5337 | Capital | Public | Local Public Bodies | 20% of total costs | \$0.8 million | Annual (application released in early fall) | Capital funds for the maintenance of fixed guideway transit and transit that operates in HOV lanes |
| Section 5339 | Capital | Public | Local Public Bodies | 20% of total costs | \$6.1 million | Annual (application released in early fall) | Capital funds for the replacement and repair of buses and bus facilities |

^a Due to the new federal transportation reauthorization bill (MAP-21) enacted in July 2012, certain programs listed in this table will not be available after 2013. FY 2012 funds remain from the previous transportation act to provide funding for Sections 5316 and 5317 in 2013, but following that granting process, JARC (Section 5316) funding may no longer be available to non-profits (as that program has been rolled into Sections 5307 and 5311) and New Freedom (Section 5317) is combined with Section 5310 to create the new Enhanced Mobility of Seniors and Individuals with Disabilities program. Under MAP-21, Section 5310 funding is available to local public bodies in addition to non-profits.

Table 4

**STATE OF WISCONSIN FUNDING PROGRAMS ADMINISTERED
BY THE WISCONSIN DEPARTMENT OF TRANSPORTATION^a**

| Program | Type | Target rider | Eligible Applicants | Local Share (approx.) | Annual Statewide Funding Level (approx.) | Application Cycle | Notes |
|---------------------------------------|---------------------|---|---|--|--|---|--|
| s.85.20 | Operating | Public in areas with at least 2,500 in population | Local public bodies | Rural 35% of total cost Urban 42% of total cost | \$106.5 million | Annual (application released in early fall) | Combined with Federal transit operating assistance funds (5311 & 5307) |
| s.85.21 | Operating & Capital | Elderly & Disabled | Counties | 20% of project costs | \$13.6 million | Annual (application released in fall) | Can be used as match for Federal programs |
| s.85.22 | Capital | Elderly & Disabled | Primarily non-profits, but can be local public bodies | 20% of total costs | \$1.0 million | Biennial (application released in fall) | Blended with Federal Section 5310 funds |
| TEAM (Trans. Employment and Mobility) | Operating & Capital | Low-income workers | Local public bodies, non-profits, metropolitan planning organizations | 25% of project costs under WETAP | \$0.3 million | Annual (WETAP application released in early fall) | Combined with ETA (State) and JARC (Federal) under the WETAP program |
| ETA (Employment Transit Aids) | Operating & Capital | Low-income workers | Local public bodies, non-profits, metropolitan planning organizations | 25% of project costs under WETAP | \$0.5 million | Annual (WETAP application released in early fall) | Combined with TEAM (State) and JARC (Federal) under the WETAP program |

^a Due to the new federal transportation reauthorization bill (MAP-21) enacted in July 2012, certain programs listed in this table may not be available after 2013. FY 2012 funds remain from the previous transportation act to provide funding for TEAM and ETA in 2013, but following that granting process, program modifications or eliminations may be made by the Wisconsin Department of Transportation.

Source: Wisconsin Department of Transportation and SEWRPC.

More information on Federal and State funding programs can be found on WisDOT's website (<http://www.dot.wisconsin.gov/localgov/transit/index.htm>). In addition to the Federal and State programs shown in Tables 3 and 4, which are aimed primarily at providing transportation services, various human-service funding programs and block grant programs can be used for transportation services.

Prioritized Strategies to Address Unmet Needs

Attendees of the Coordination Planning meeting were asked to consider strategies to address the unmet needs that they had already identified. At the meeting, Commission staff provided information on strategies proposed in the 2008 Coordination Plans to illustrate potential strategies to improve transportation service.

Small groups were asked to use their previously created list of unmet transportation needs for the Region to guide their development of strategies, and then each group informed the remainder of the

participants at the meeting of their suggested strategies. After some discussion, participants were asked to vote on their preferred strategies to address the Region's unmet transportation needs, which led to the creation of the following prioritized list of strategies.

Strategies for Addressing Unmet Travel Needs between Counties

1. Establish a regional transit authority with a dedicated funding source.
2. Create a staffed call center for information about all public transportation and human services transportation. This call center could be built from the existing Southeast Wisconsin Transit Systems marketing partnership, and coordinated with an effort to increase education and outreach to the public.

3. Until a regional transit authority is established, improve and strengthen services that cross county lines to increase job access transportation, including creating a transfer point – potentially an existing MCTS bus stop near the Ozaukee County border – for Ozaukee County’s taxi service and the Milwaukee County Transit System and its associated Transit Plus paratransit service.
4. Increase non-urgent medical transportation options for individuals not eligible for Medicaid.
5. Increase the availability of Demand Response services outside of Milwaukee, Ozaukee, and Washington Counties.
6. Consolidate functions and share resources among transportation providers. Some potential areas to share or consolidate include:
 - a. Consolidated call center for trip reservations or scheduling
 - b. Shared operating or support services, such as software, driver training, or drug testing programs
7. In lieu of a regional transit authority, the State should develop rules, policies, and procedures to guide the development and operation of local transit systems, which local transit systems would be required to follow.
8. Require memorandums of agreement or understanding between transit agencies to provide service across county borders as a stipulation for receiving state transit assistance.
9. Create a risk pool for specialized medical transportation providers to address cost issues with liability insurance.
10. Increase funding for mobility managers to assist them in coordinating across county lines, and create a liaison to coordinate all mobility managers in the region.
11. Establish consistent fare structures, eligibility requirements, and service hours for similar types of service in all counties.

This will increase clarity and understanding by the public concerning services and how to use them.

12. Purchase new vehicles for transportation services, such as accessible vans or buses for wheelchair passengers.

Participants also developed a list of strategies for addressing unmet needs for travel within Waukesha County. At the meeting, a second set of small group discussions occurred, where participants sat at a table with other attendees from the same county to follow up their identification of unmet needs with a list of strategies to address those needs. That discussion resulted in this prioritized list of strategies that the participants believed were appropriate for Waukesha County.

Strategies for Addressing Unmet Travel Needs within Waukesha County

1. Improve the availability, convenience, safety, and security of transportation services. Some of the improvements that were identified included:
 - a. Provide more frequent service on Waukesha Metro Transit and Waukesha County Transit System bus routes.
 - b. Expand the service area and hours of operation of public transit services.
 - c. Expand the fleet and staff capacities of non-profit providers.
2. Continue to fund a mobility manager position with a transit system or the County whose duties could include, but would not be limited to:
 - a. Assisting in coordinating transportation services.
 - b. Promoting the availability of transportation services.
 - c. Gathering and analyzing data to evaluate a variety of transportation options for seniors, disabled, and low-income individuals.
 - d. Create and promote advocacy groups to work together to identify and address barriers to service coordination, and evaluate and navigate local, County, State, and Federal government rules.

3. Establish or expand transportation services.
Examples include:

- a. Shuttle bus routes.
- b. Flexible transit services.
- c. Volunteer driver/escort programs.
- d. Subsidized shared-ride taxi services to provide demand-responsive transit service where feasible.

4. Improve access to information on the available transportation services and on how to use public transit. Some ways to improve the dissemination of information include:

- a. Implement/continue a travel training program for potential users of the fixed-route transit services.
- b. Create a clearinghouse or centralized information source for information on all transit services. Examples could include 211 community information, 511 traveler information services, and

5. Increase public education about the value of public transit and human services transportation and the importance of having transportation alternatives. Consider providing incentives to encourage transit use.

6. Promote increases in funding for public transportation services to foster improved service availability, convenience, safety, and lower fares. Also, develop strategies to obtain funding for projects that would improve or increase the transportation services available in the County.

7. Support auto purchase and repair programs and driver's license recovery programs directed at low-income workers who cannot use public transportation to get to jobs.

VI. PLAN IMPLEMENTATION

Attendees of the Coordination Planning meeting were also asked to consider who should be responsible for implementing each of the identified strategies. Some of the potential responsible parties that the Waukesha County participants identified are listed below.

Waukesha County

- The County would be responsible for implementing any service improvements to the Waukesha County Transit System.
- Establish a county-wide shared-ride taxi open to the general public serving the areas not served by Waukesha Metro Transit.

City of Waukesha

- The City would be responsible for implementing any service improvements to Waukesha Metro Transit.

Mobility Managers

- Improve access to information on the available transportation services by creating a clearinghouse for information on all transit

services and implementing a travel training program.

- Promote advocacy groups to work together to identify and address barriers to service coordination, and evaluate and navigate local, County, State, and Federal government rules.

All Transportation Providers

- Improve access to information on the transportation services provided.

All Parties

- All interested parties, including the City, County, and other municipalities, should advocate for increased transit funding, including State funding and the establishment of dedicated funding for public transportation.
- Encourage public discussion of the need for improved public transit and human services transportation options in Waukesha County.

| Albert A. Beck..... | Principal Planner, SEWRPC |
| Eric Lynde | Senior Planner, SEWRPC |
| Kevin Muhs | Planner, SEWRPC |

WELCOME AND INTRODUCTIONS

Mr. Muhs welcomed participants and asked attendees to introduce themselves and the agency they represented to their fellow attendees at their table. The participants had been assigned to one of fourteen small groups of six to eight people for the morning’s discussion of regional transportation. Each group had participants from multiple counties, to provide the widest perspective possible at each table. Mr. Muhs then explained the agenda for the meeting:

- 1. Overview of the coordination process
- 2. Information on existing and future funding programs and opportunities
- 3. Small group discussions addressing regional transportation
- 4. Discussion of the results of the small groups, with selection of regional prioritized strategies
- 5. Small group discussions addressing travel within each county

OVERVIEW OF THE COORDINATION PROCESS

Mr. Muhs described the federal requirements for project funding and coordination plans. He also described the Wisconsin Department of Transportation (WisDOT) coordinated planning process and the need for a regional planning approach.

INFORMATION ON EXISTING AND FUTURE FUNDING PROGRAMS

Mr. Miller and Ms. Foss of WisDOT outlined the various opportunities for funding assistance from the federal and state governments for public and non-profit operators. Mr. Miller described current funding opportunities available through federal Section 5316 funds and state Wisconsin Employment Transportation Assistance Program (WETAP) funds. Mr. Miller indicated that some programs may be changing as more guidance is received from the Federal Transit Administration regarding the recently passed transportation reauthorization bill, Moving Ahead for Progress in the 21st Century. Ms. Foss described funding opportunities for specialized medical transportation providers through the federal Section 5310 and 5317 programs.

SMALL GROUP DISCUSSION ADDRESSING REGIONAL TRANSPORTATION

Mr. Muhs introduced the small group discussion packet that assisted groups in their analysis of transportation services that crossed county borders, describing the inventories of principal transportation providers that cross county borders, including public, private, and non-profit providers of human services transportation and providers of transportation for the general public. He then described the other data available to the participants in the packets, including maps of existing public transit, specialized transportation, and paratransit services in the Region. He asked each small group to review the inventory list and provide any corrections or additional information. Following this review, attendees were asked to discuss existing regional transit services within their small group and assess the quality of the services based on eight different service attributes. This assessment guided the groups as they discussed needs that were unmet by existing services and prioritized fulfilling those unmet needs. Finally, each small group was asked to create strategies to address its list of unmet needs. Lists of previous unmet needs and strategies from the 2008 planning effort were provided to each participant to assist in the discussion within each small group.

DISCUSSION OF REGIONAL PRIORITIZED STRATEGIES

Following the completion of their packets by all of the small groups, each group was invited to select a member to discuss the group’s unmet needs and strategies to address those needs. Commission staff recorded these strategies while they were being discussed, and asked the participants to vote (by show of hands) on their top three strategies. The results of this voting process guided the development of a list of prioritized strategies to address the unmet travel needs of the Region. This list of prioritized strategies and a summary of the key findings of the

small group discussions appear in the Public Transit-Human Services Transportation Coordination Plan for each county.

SMALL GROUP DISCUSSION ADDRESSING TRANSPORTATION WITHIN EACH COUNTY

Following the selection of prioritized strategies to address regional needs, new small groups were formed to discuss transportation within each county. A similar process was followed as with the previous small groups, with each participant receiving a packet of information to guide the discussion. The small group discussion packet for each county contained an inventory of principal transportation providers within the county, including public, private, and non-profit providers of human services transportation and providers of transportation for the general public. Other information in each packet included population growth of transit dependent populations and maps of existing public transit service areas overlaid over population density, employment density, high transit need areas, and major activity centers. Lists of previous unmet needs and strategies from the 2008 planning effort were also provided to each participant to assist in the discussion within each small group. Small groups were asked to review the list of existing services, assess the quality of the services, create a list of unmet needs, and list strategies to address those unmet needs. Following the completion of those tasks, counties with more than one small group were asked to join together with the other tables discussing the same county to create a prioritized list of strategies for the county.

WRAP-UP

After the small group discussions, Mr. Muhs informed participants that a draft plan for each county would be assembled by Commission staff and available for comment. A finalized Public Transit-Human Services Transportation Coordination Plan for each county would be submitted to WisDOT by the end of the year.
