SUBJECT: Certification of Amendment to the Adopted Regional Water Quality Management Plan (Greater Kenosha Sanitary Sewer Service Area)

TO: The Legislative Bodies of Concerned Local Units of Government within the Southeastern Wisconsin Region, namely: the County of Kenosha, the City of Kenosha, and the Village of Pleasant Prairie.

This is to certify that at the meeting of the Southeastern Wisconsin Regional Planning Commission, held at the Washington County Courthouse Government Center, West Bend, Wisconsin, on the 20th day of June 2012, the Commission did by unanimous vote of all Commissioners present, being 15 ayes and 0 nays, and by appropriate Resolution, a copy of which is made a part hereof and incorporated by reference to the same force and effect as if it had been specifically set forth herein in detail, adopt an amendment to the regional water quality management plan, which plan was originally adopted by the Commission on the 12th day of July 1979, as part of the master plan for the physical development of the Region. Said amendment to the regional water quality management plan pertains to the revised Greater Kenosha sanitary sewer service area and consists of the documents attached hereto and made a part hereof. Such action taken by the Commission is recorded on, and is a part of, said plan, and the plan as amended is hereby transmitted to the constituent local units of government for consideration, adoption, and implementation.

IN TESTIMONY WHEREOF, I have hereunto set my hand and seal and cause the Seal of the Southeastern Wisconsin Regional Planning Commission to be hereto affixed. Dated at the City of Pewaukee, Wisconsin, this 21st day of June 2012.

David L. Stroik, Chairman
Southeastern Wisconsin
Regional Planning Commission

ATTEST:

Kenneth R. Yunker, Deputy Secretary

(This page intentionally left blank)

RESOLUTION NO. 2012-04

RESOLUTION OF THE SOUTHEASTERN WISCONSIN REGIONAL PLANNING COMMISSION AMENDING THE ADOPTED REGIONAL WATER QUALITY MANAGEMENT PLAN, THAT PLAN BEING A PART OF THE MASTER PLAN FOR THE PHYSICAL DEVELOPMENT OF THE REGION CONSISTING OF THE COUNTIES OF KENOSHA, MILWAUKEE, OZAUKEE, RACINE, WALWORTH, WASHINGTON AND WAUKESHA IN THE STATE OF WISCONSIN (GREATER KENOSHA SANITARY SEWER SERVICE AREA)

WHEREAS, pursuant to Section 66.0309(10) of the *Wisconsin Statutes*, the Southeastern Wisconsin Regional Planning Commission, at a meeting held on the 12th day of July 1979, duly adopted a regional water quality management plan as documented in the three-volume SEWRPC Planning Report No. 30, *A Regional Water Quality Management Plan for Southeastern Wisconsin: 2000*; and

WHEREAS, the Commission duly adopted an amendment to the regional water quality management plan refining and detailing the Greater Kenosha sanitary sewer service area as documented in SEWRPC Community Assistance Planning Report No. 106, *Sanitary Sewer Service Area for the City of Kenosha and Environs, Kenosha County, Wisconsin*, November 1985, as amended; and

WHEREAS by letter dated February 1, 2012, the Kenosha Water Utility requested that the Commission amend the Greater Kenosha sanitary sewer service area to include certain lands located outside of the currently adopted sewer service area; and

WHEREAS, the proposed amendment to the regional water quality management plan is documented in a Commission staff memorandum entitled, "Response to Request by the Kenosha Water Utility to Amend the Greater Kenosha Sanitary Sewer Service Area," attached hereto and made a part hereof; and

WHEREAS, the requested change to the regional water quality management plan, as documented in the aforementioned staff memorandum, was the subject of a public hearing held jointly by the Kenosha Water Utility and the Regional Planning Commission on March 28, 2012; and

WHEREAS, Section 66.0309(9) of the *Wisconsin Statutes* authorizes and empowers the Regional Planning Commission, as the work of making the whole master plan progresses, to amend, extend, or add to the master plan or carry any part or subject thereof into greater detail;

NOW, THEREFORE, BE IT HEREBY RESOLVED:

FIRST: That the regional water quality management plan for the Southeastern Wisconsin Region, being a part of the master plan for the physical development of the Region and comprised of SEWRPC Planning Report No. 30, Volumes One, Two, and Three, which was adopted by the Commission as a part of the master plan on the 12th day of July 1979, and which was subsequently amended to include the refined Greater Kenosha sanitary sewer service area, be and the same hereby is amended in the manner identified on Map 1 of the aforementioned SEWRPC staff memorandum.

SECOND: That the Executive Director is authorized to submit findings to the Wisconsin Department of Natural Resources and the Wisconsin Department of Safety and Professional Services that public and private sanitary sewer extensions necessary to serve the anticipated development on the lands concerned are in conformance with, and would serve to implement, the adopted regional water quality management plan as herein amended.

RESOLUTION NO. 2012-04

THIRD: That a true, correct, and exact copy of this resolution, together with the aforementioned SEWRPC staff memorandum, shall be forthwith distributed to each of the local legislative bodies of the local governmental units within the Region entitled thereto and to such other bodies, agencies, or individuals as the law may require or as the Commission, its Executive Committee, or its Executive Director, at their discretion, shall determine and direct.

The foregoing resolution, upon motion duly made and seconded, was regularly adopted at the meeting of the Southeastern Wisconsin Regional Planning Commission held on the 20th day of June 2012, the vote being: Ayes 15; Nays 0.

David L. Stroik, Chairman

ATTEST:

Kenneth R. Yunker, Deputy Secretary

SEWRPC STAFF MEMORANDUM

RESPONSE TO REQUEST BY THE KENOSHA WATER UTILITY TO AMEND THE GREATER KENOSHA SANITARY SEWER SERVICE AREA

INTRODUCTION

By letter dated February 1, 2012, the Kenosha Water Utility requested that the Southeastern Wisconsin Regional Planning Commission amend the Greater Kenosha sanitary sewer service area tributary to the City of Kenosha wastewater treatment plant. That area is currently documented in a SEWRPC report titled *Amendment to the Regional Water Quality Management Plan—Greater Kenosha Area*, dated December 2001, as amended. The basic purpose of this amendment would be to include within the planned Greater Kenosha sewer service area certain lands located immediately adjacent to, but outside, the currently adopted sewer service area, including land in the Village of Pleasant Prairie and the City of Kenosha.

AREA DESCRIPTION

Two areas, designated Area A and Area B on Map 1, are proposed to be added to the Greater Kenosha sanitary sewer service area:

Area A

Area A encompasses about 59 acres located generally north of CTH K and west of IH 94 in the City of Kenosha. It includes about 14 acres of land located within existing street rights-of-way; five acres of small wetlands as identified in the Wisconsin Wetlands Inventory; and 40 acres of other open land. Area A does not encompass any lands that have been identified as environmental corridor or isolated natural resource area. It is envisioned that Area A would be developed for commercial use.

Area B

Area B encompasses about 27 acres located generally east of the intersection of CTH CJ and CTH U in the Village of Pleasant Prairie. It does not encompass any areas that have been identified as environmental corridor or isolated natural resource area, nor does it include any wetlands as identified in the Wisconsin Wetlands Inventory. It is envisioned that Area B would accommodate a large product distribution facility, which would be developed on Area B and land to the east of Area B.

More detailed delineations of Areas A and B and of environmentally significant lands in the vicinity of each are shown on the aerial photographs reproduced as Maps 2 and 3. The environmentally significant lands shown on Maps 2 and 3 have been updated to reflect the most recent available natural resource and floodplain information.

RELATIONSHIP OF THE PROPOSED CHANGES TO THE EXISTING SANITARY SEWER SERVICE AREA

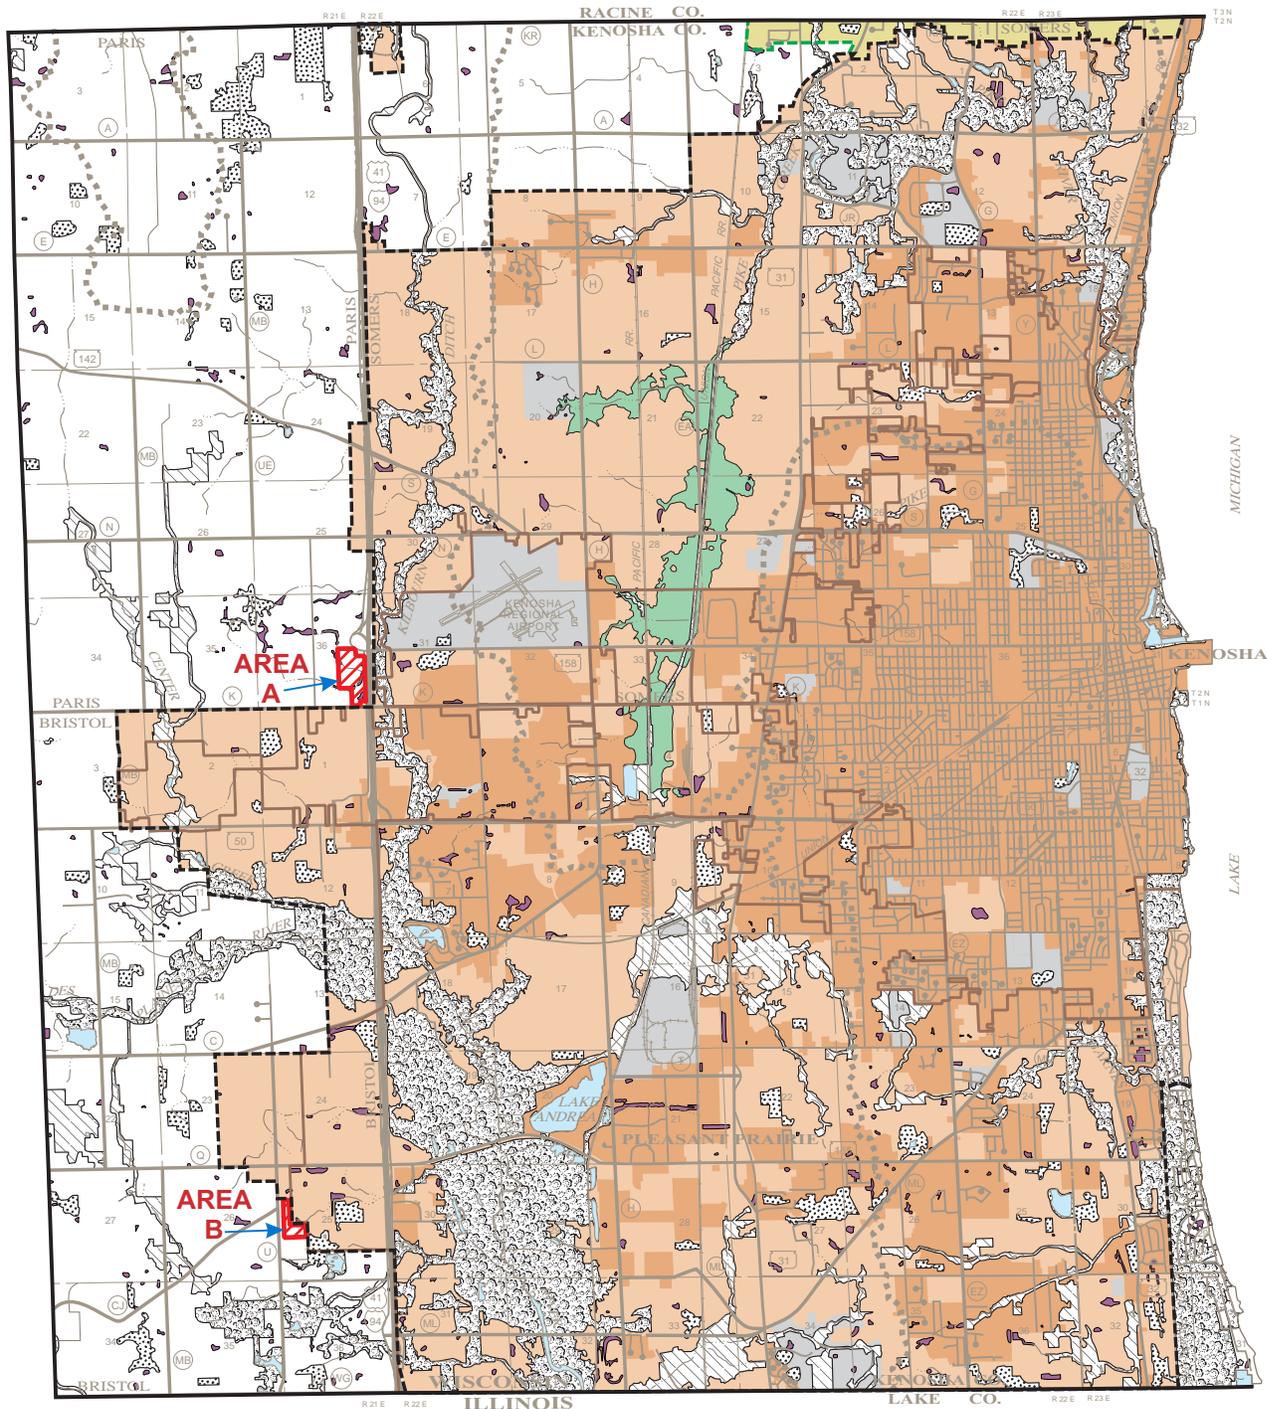

The proposed addition of 86 acres to the Greater Kenosha sanitary sewer service area represents an increase in the planned sewer service area of less than 1 percent.

WATER QUALITY IMPACTS

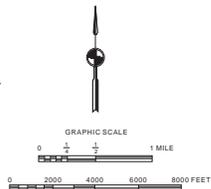

Under the adopted regional water quality management plan and the Greater Kenosha sanitary sewer service area plan, it is envisioned that all new urban development within the planned urban service area would receive sanitary sewer service. Assuming that all applicable Federal, State, and local permits are obtained and that proper site development and construction practices are employed, there should be no significant adverse water quality impacts attributable to the development of the planned sanitary sewer service area.

Map 1

PROPOSED AMENDMENT TO THE GREATER KENOSHA SANITARY SEWER SERVICE AREA

- GREATER KENOSHA SANITARY SEWER SERVICE AREA
- AREAS SERVED BY SEWERS TRIBUTARY TO THE CITY OF KENOSHA SEWAGE TREATMENT FACILITY: 2006
- RACINE AND ENVIRONS SANITARY SEWER SERVICE AREA
- PRIMARY ENVIRONMENTAL CORRIDOR
- SECONDARY ENVIRONMENTAL CORRIDOR
- ISOLATED NATURAL RESOURCE AREA
- WETLANDS AND SURFACE WATER AREAS LESS THAN FIVE ACRES IN SIZE LOCATED OUTSIDE ENVIRONMENTAL CORRIDORS AND ISOLATED NATURAL RESOURCE AREAS
- AIRPORTS, LARGE PARK AND RECREATION SITES, AND SIMILAR USES WITHIN THE SEWER SERVICE AREA
- UNDEVELOPED FLOODLANDS ALONG PIKE CREEK THAT ARE POTENTIAL ADDITIONS TO THE PIKE CREEK ENVIRONMENTAL CORRIDOR. THE BOUNDARIES OF SUCH AREAS MAY BE MODIFIED BASED UPON ENGINEERING STUDIES AND DETAILED SITE PLANNING. IN ACCORDANCE WITH EXISTING FLOODPLAIN REGULATIONS AND A FINDING OF NO NET LOSS IN FLOODWATER STORAGE VOLUME, CLASSIFICATION AS TO PRIMARY OR SECONDARY ENVIRONMENTAL CORRIDOR WILL BE MADE BASED UPON THE ULTIMATE CONFIGURATION OF THE FLOODPLAIN IN THIS AREA.
- AREAS PROPOSED TO BE ADDED TO THE GREATER KENOSHA SANITARY SEWER SERVICE AREA: JUNE 2012

Source: SEWRPC.

SEWAGE TREATMENT PLANT CAPACITY ANALYSIS

The City of Kenosha wastewater treatment plant has a capacity of about 28.6 millions of gallons per day (mgd) of wastewater on an average annual basis. The current hydraulic loading to the plant is about 22.9 mgd on an average annual basis. The anticipated flow to be generated from the commercial development expected to be accommodated in Area A and the distribution facility expected to be located in part in Area B is about 0.03 mgd. Thus, the treatment plant has adequate capacity to treat wastewater flows from the areas proposed to be added to the sewer service area.

PUBLIC REACTION TO THE PLAN AMENDMENT

A public hearing was held on March 28, 2012, at the Kenosha Municipal Building to receive public comment on, and reaction to, the proposed sewer service area amendment. The hearing was sponsored by the Kenosha Water Utility and the Regional Planning Commission. A summary of the amendment was presented prior to receiving public comment. No objections to the proposed amendment were expressed at the hearing.

LOCAL ACTION ON THE PLAN AMENDMENT

The Board of Commissioners of the Kenosha Water Utility approved the amendment following the public hearing on March 28, 2012.

CONCLUDING RECOMMENDATION

The Regional Planning Commission's evaluation of proposed sanitary sewer service area amendments includes a consideration of whether the amendment is consistent with the regional land use plan, the regional water quality management plan, and the provisions of the *Wisconsin Administrative Code* governing water quality management plans, and whether established procedures for amending sewer service areas have been followed.

- **Consistency with the Regional Land Use Plan**
The regional land use plan recommends that, in addition to the infilling and redevelopment of existing urban centers, new urban development within the Region be accommodated through the orderly expansion of existing urban centers in locations and at densities which can be efficiently served by basic urban facilities, including sanitary sewer service, with the overall amount of new urban development consistent with projected growth in population and the economic base. The regional land use plan further recommends the preservation of primary environmental corridors and that consideration be given to the preservation of secondary environmental corridors and isolated natural resource areas. The proposed sewer service area amendment is consistent with these recommendations of the regional land use plan.
- **Consistency with the Regional Water Quality Management Plan**
The regional water quality management plan recommends that new urban development within the Region be provided with centralized sanitary sewer service. The plan designates a wastewater treatment plant to serve each of the urban centers within the Region that are identified in the regional land use plan. In the case at hand, the regional plan recommends that the Kenosha urban service area be served through the Kenosha sewerage system. The proposed sewer service area amendment is consistent with these recommendations of the regional water quality management plan.
- **Consistency with Chapter NR 121 of the Wisconsin Administrative Code**
Chapter NR 121 of the *Wisconsin Administrative Code* governs the preparation of areawide water quality management plans, including the component sewer service area plans. The code requires that sewer service areas be determined in a way that promotes cost-effective and environmentally sound waste

collection and treatment and that is consistent with 20-year population projections. Under the code, sewer service area plans must identify lands that are to be excluded from sewer service because of physical or environmental constraints or potential adverse water quality impacts. The proposed sewer service area amendment is consistent with these provisions of the *Wisconsin Administrative Code*.

- **Consistency with Procedural Requirements**

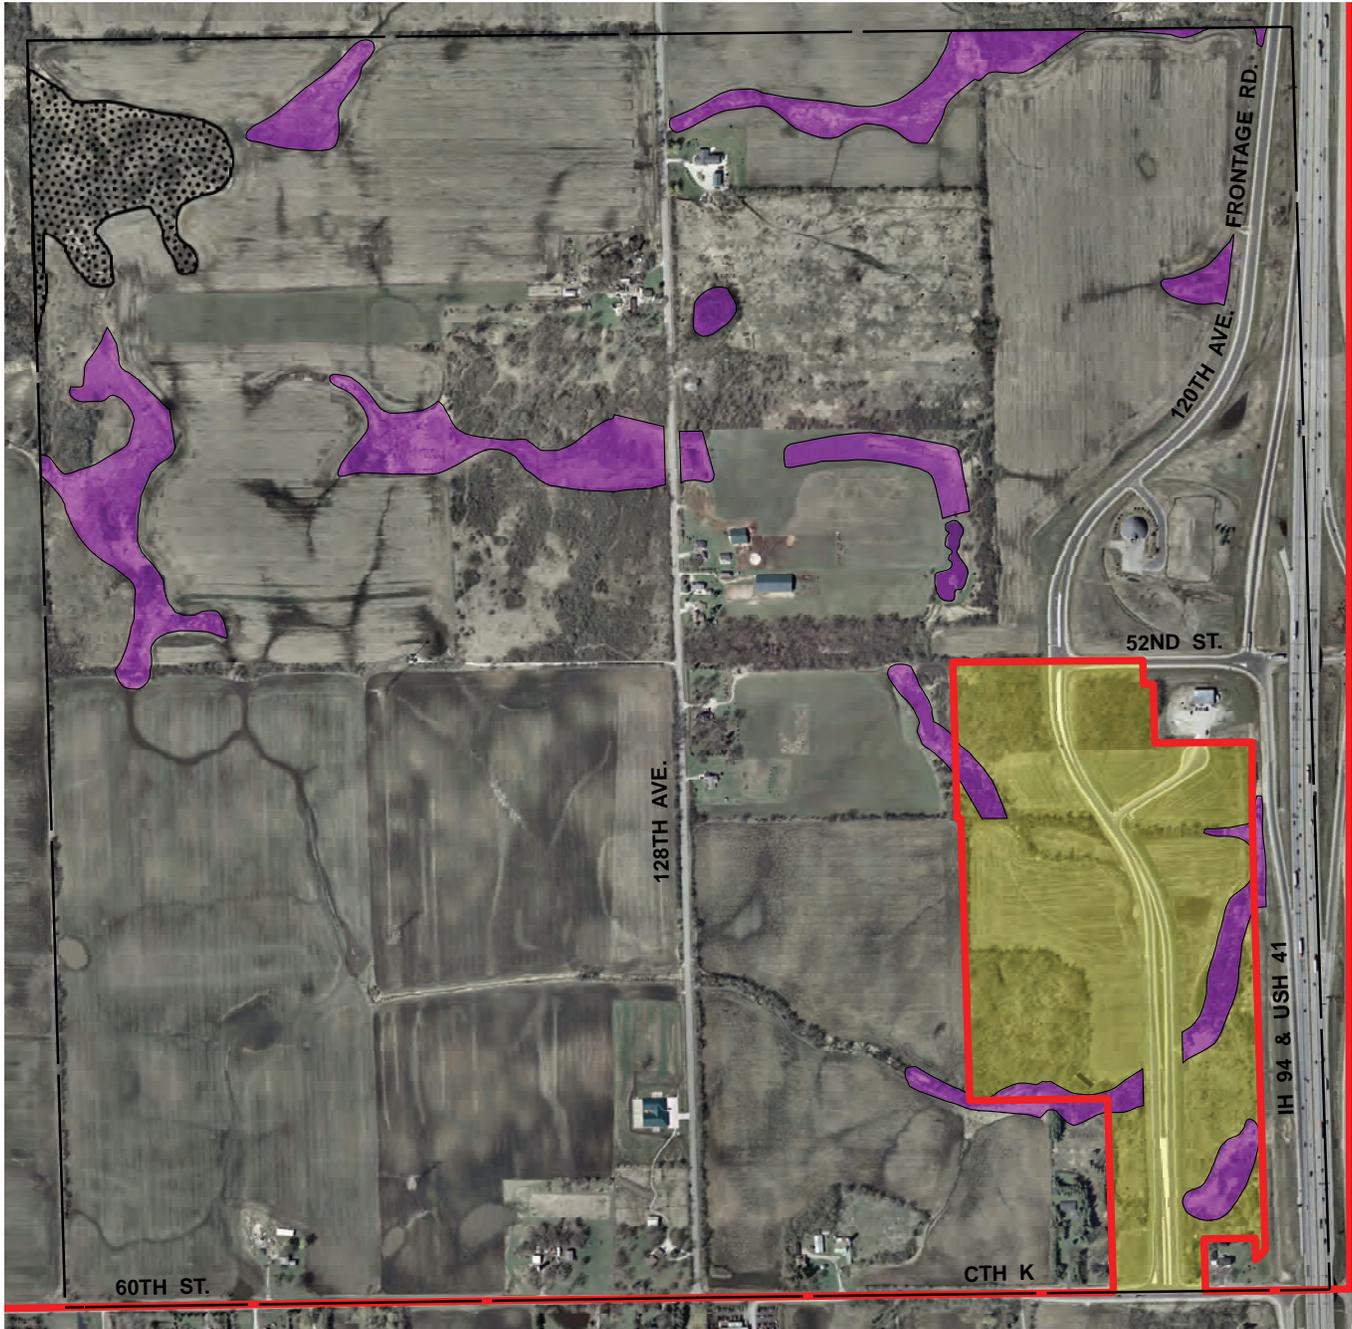

As carried out by the Regional Planning Commission, the sewer service area amendment process must begin with a request to the Commission from the agency responsible for operation of the tributary wastewater treatment plant to process the amendment. A public hearing must be held on the proposed amendment; the hearing is jointly sponsored by the Regional Planning Commission and the requesting agency or unit of government. Subsequent to the public hearing, the requesting agency or unit of government must act to approve the amendment as presented at the hearing, approve a modified amendment, or deny the amendment. Only after approval by the requesting agency or unit of government will the proposed amendment be considered for adoption by the Regional Planning Commission as an amendment to the areawide water quality management plan. All of the Commission's procedural requirements have been met for this amendment.

Given all of the foregoing, it is recommended that the Southeastern Wisconsin Regional Planning Commission formally amend the Greater Kenosha sanitary sewer service area as documented in SEWRPC Community Assistance Planning Report No. 106, in the manner shown on Map 1. It is also recommended that the Wisconsin Department of Natural Resources approve this sewer service area plan amendment and certify the plan amendment through the Governor to the U.S. Environmental Protection Agency.
