

# ENHANCED BICYCLE FACILITIES WORKSHOP

Tuesday, March 24, 2015  
6:00 p.m. – 7:30 p.m.

Room 102  
Zeidler Municipal Building  
841 N Broadway  
Milwaukee, WI 53202

## AGENDA

Topic/Presentation	Description
Welcome, Introduction, and Expected Outcomes	Welcoming of participants and brief review of the purpose of the workshop
VISION 2050 Overview	A summary of VISION 2050—a SEWRPC effort to create a long-range regional land use and transportation plan for Southeastern Wisconsin—and the bicycle/pedestrian considerations as part of VISION 2050
Overview: Potential Benefits of Enhanced Bicycle Facilities	An explanation of why enhanced bicycle facilities are an emerging facility option for increasing safety and comfort
Enhanced Bicycle Facilities: Features and Implementation	Enhanced bicycle facility examples and when and where to consider these facilities
Draft Criteria for Determining Key Corridors for Enhanced Bicycle Facilities	A review of possible criteria that could be used during the VISION 2050 process for determining key corridors that may benefit from enhanced bicycle facilities
Group Discussion	Participants will have an opportunity to provide feedback related to the following: <ul style="list-style-type: none"><li>• Benefits that could be achieved and challenges that could be faced when trying to implement enhanced bicycle facilities</li><li>• Important locations in the Region and preferred routes for getting to and from them</li><li>• Existing obstacles that make it difficult to bike to/from important locations</li><li>• Draft criteria for determining key corridors</li></ul>
Wrap Up and Next Steps	A recap of the event and how the group discussion will be considered in the VISION 2050 planning process
