Southeastern Wisconsin Regional Planning Commission

STAFF MEMORANDUM

TO: Members of the Advisory Committee on Transportation System Planning and Programming for the Milwaukee Urbanized Area

FROM: Southeastern Wisconsin Regional Planning Commission Staff

DATE: May 5, 2009

SUBJECT: Proposed American Recovery and Reinvestment Act Federal Highway Administration Surface Transportation Program – Milwaukee Urbanized Area (ARRA FHWA STP-MUA) Funding Allocation and Project Selection Process

Based on the suggestions and concerns identified by the Advisory Committee on Transportation System Planning and Programming in the Milwaukee Urbanized Area and by local governments from the Milwaukee urbanized area over the last month at four Advisory Committee meetings, the Commission staff is offering the following proposed allocation of funding and selection of projects for the \$38.7 million of American Recovery and Reinvestment Act Federal Highway Administration Surface Transportation Program – Milwaukee Urbanized Area (ARRA FHWA STP-MUA). This funding allocation process and project selection will be difficult because there are over \$213 million of candidate projects and only \$38.7 million of available funds. Attachment 1 displays the candidate projects by category of project and project sponsor. The proposed funding allocation and project selection attempts to treat each county and community fairly and equitably, and attempts to address the three criteria identified for consideration in funding allocation and project selection:

- Recognize the overall need for funding is, and the allocation of funding and project selection should be, in proportion to the lane-miles of arterial facilities under the jurisdiction of each county and community.

PROJECTS DEEMED ELIGIBLE FOR AMERICAN RECOVERY AND REINVESTMENT ACT FEDERAL HIGHWAY ADMINISTRATION SURFACE TRANSPORTATION PROGRAM - MILWAUKEE URBANIZED AREA FUNDS AS DETERMINED BY THE WISCONSIN DEPARTMENT OF TRANSPORTATION

Bridge Projects

County	Project Sponsor	Roadway	Limit/Location	TIP NO.	Construction Cost with Delivery (includes 23 percent for contingencies)	ARRA Design Cost Applied For	Total Cost	Project Sponsor Priority	Anticipated Year for Start of Construction	Project Type

Total for Nonarterial Projects					\$22,669,023	\$442,860	\$23,111,883			

^a This project was previously approved for American Recovery and Reinvestment Federal Highway Administration Surface Transportation Program - Milwaukee Urbanized Area funding by the Advisory Committee on Transportation System Planning and Programming for the Milwaukee Urbanized Area at its March 16, 2009, meeting.

Source: Wisconsin Department of Transportation and SEWRPC

- Recognize that the ARRA states that priority is to be given to projects located in economically distressed areas, and the long used lane-mile funding allocation should be adjusted to account for this concern.
- Recognize that the ARRA is an economic stimulus bill, and projects which would be under construction in 2009, as compared to 2010, should receive priority for funding.

The proposed funding allocation and project selection is as follows:

- The funds would by-in-large be treated separately from the routine annual FHWA STP-MUA funds. That is, for initial project selection, there will be no consideration of the current balances for each community and county of FHWA STP-MUA funding.
- The \$38.7 million of ARRA FHWA STP-MUA funds would be allocated to counties and communities by planned lane-miles of arterials, adjusted for communities with areas in economic distress as defined by Federal law. The adjustment is based on the proportion of land area and population in each community and county in economically distressed areas, as defined by the year 2000 U.S. Census. The approximate proportions for each community and county are as follows: City of Cudahy, 20 to 30 percent; City of Milwaukee, 55 to 65 percent; City of South Milwaukee, 10 to 15 percent; City of West Allis, 5 to 10 percent; Milwaukee County, 25 to 45 percent; City of Waukesha, less than 5 percent; and Waukesha County, less than 1 percent.

Attachment 2 displays three alternatives for adjusting for communities with areas in economic distress. The first, Option 1, would factor each community's and county's proportion of area lane-miles by the proportion of its community/county population and land area in areas of economic distress. The second, Option 2, would only include 50 percent of this factor. Only including 50 percent would result in the funding to a community and county with areas in economic distress being increased in funding relative to a community/county without areas in economic distress by the proportion of its population/land area in economic distress. (For example, comparing two communities with equal lane miles, a community with 40 percent of its population and land area in economically distressed areas would receive about 40 percent more funding than a community with no areas of economic distress.) The proposed adjustment would be an average of Options 1 and 2.

Attachment 2

PROPOSED ALLOCATION OF AMERICAN RECOVERY AND REINVESTMENT ACT OF 2009 FEDERAL HIGHWAY ADMINISTRATION SURFACE TRANSPORTATION PROGRAM-MILWAUKEE URBANIZED AREA FUNDS BASED ON YEAR 2035 PLANNED ARTERIAL LANE-MILES ADJUSTED FOR ECONOMIC DISTRESS

#144567

- The first selection of projects will be for those communities and counties with sufficient allocated ARRA funding to fully fund, or nearly fully fund, (about 80 percent or more) a project(s). Given that requested funding of \$213 million far exceeds available funding of \$38.7 million, arterial projects are provided priority in funding over collector projects. This first selection of projects is shown in Attachment 3.
- Attachment 4 shows the remaining balance by county and for the Milwaukee urbanized area after these initial project selections. Attachment 5 displays the remaining candidate projects for funding consideration by county.
- The remaining funding in each county and the Milwaukee urbanized area could be assigned to projects in three ways:
 - To county projects in each county which by definition benefit all municipalities in a county, and which may by their location specifically benefit communities in their county which did not receive a project.
 - To municipal projects in a county. Such project selection would result in “winners” (municipalities receiving a project which would represent funding greatly exceeding their allocated ARRA funding) and “losers” (communities which were allocated ARRA funding, but not being selected for a project). To address this issue, it is proposed that municipalities receiving a project in excess of their allocated funding be required to return 80 percent of the excess funding to the municipalities in their county which did not receive a project. The funding would be returned by debiting their current FHWA STP-MUA balance by that amount, and distributing it to communities not receiving an ARRA project in proportion to their ARRA allocated funding. This adjustment is very similar to that done routinely with FHWA STP-MUA funds.
 - To projects in another county which would permit a project which could be under construction in 2009 and creating economic stimulus to go forward. This would apply specifically to the County Line Road (CTH Q) project in Washington County. Again, to address “winners” and “losers”, it is recommended that a county or municipality (in this case, Washington County) receiving a project in excess of their allocated funding be required to return 80 percent of the excess funding to the municipalities in the county which provided

Source: Wisconsin Department of Transportation and SEWRPC.

their allocated funds and did not receive a project. The funding would be returned by debiting the county's or other benefitting community's FHWA STP-MUA balance by that amount, and distributing it to communities not receiving an ARRA project in proportion to their ARRA allocated funding. This adjustment is very similar to that done routinely with FHWA STP-M funds.

Based upon the above proposed procedure for selecting projects with the remaining funding, the following suggestions are made for selecting projects with the remaining funding:

Milwaukee County - \$2.39 million remaining funding

Option 1 – Additional Milwaukee County Project and River Hills River Road Bridge

- CTH ZZ (College Avenue) between S. Pennsylvania Avenue and S. Packard Avenue (Milwaukee County).
-- Project cost: \$1.98 million

- River Road bridge over Indian Creek (Village of River Hills).
-- Project cost: \$317,315
-- ARRA allocated funding: \$68,168
-- Excess funding needed: \$49,147
-- 80% of excess funding to be debited from STP-M balance -- \$199,320

- Milwaukee County municipalities to receive additional STP-MUA balance of \$199,320 (see Attachment 6).

Option 2 – Municipal Projects and River Hills River Road Bridge

- Village of Brown Deer
 - N. 60th Street between W. Fairy Chasm Road and W. County Line Road
-- Project Cost: \$451,400
 - ARRA Allocated Funding: \$138,563
 - Excess Funding Needed: \$312,837

Attachment 6

FEDERAL HIGHWAY ADMINISTRATION SURFACE TRANSPORTATION PROGRAM - MILWAUKEE URBANIZED
 AREA BALANCES PROPOSED TO BE CREDITED TO COMMUNITIES IN MILWAUKEE COUNTY--OPTION 1

County	Communities	Estimated Remaining ARRA STP Balance	Portion of STP-MUA Balance Debited from the Village of River Hills
Milwaukee	Village of Bayside	\$514	\$36
	Village of Brown Deer	\$138,563	\$9,590
	City of Cudahy	\$389,056	\$26,927

- 80% of excess funding to be debited from STP-M balance: \$250,270

- City of Greenfield
 - 60th Street between W. Waterford Avenue and W. Upham Avenue
 - Project cost: \$1,537,500
 - ARRA allocated funding: \$41,610 remaining
 - Excess funding needed: \$1,495,890
 - 80% of excess funding to be debited from STP-M balance: \$1,196,710

- River Road bridge over Indian Creek (Village of River Hills).
 - Project cost: \$317,315
 - ARRA allocated funding: \$68,168
 - Excess funding needed: \$249,147
 - 80% of excess funding to be debited from STP-M balance -- \$199,320

- Milwaukee County municipalities to receive additional STP-M balance of \$1,646,300 (see Attachment 7).

Waukesha County - \$2.56 million

- No additional projects
- Remaining allocated funding to go to County Line Road (CTH Q) (\$2.56 million)
- Waukesha County municipalities to receive additional STP-M balance of \$2.05 million from Washington County and the Village of Germantown and \$119,860 from the Village of Oconomowoc Lake (\$150,000 was approved by the Advisory Committee on Transportation System Planning and Programming for the Milwaukee Urbanized Area at its March 16, 2009, meeting for Valentine Road Bridge) (see Attachment 8).

Racine	Village of Caledonia	\$34,769	\$27,820	\$0	\$27,820
	Total for Racine County	\$34,769	\$27,820	\$0	\$27,820
Total		\$3,624,334	\$2,549,110	\$119,860	\$2,668,970

^a Of the \$2,549,110 in STP-MUA balance proposed to be debited to communities in Ozaukee and Waukesha Counties for the CTH Q reconstruction project between USH 41/45 and Pilgrim Road, \$625,322 is proposed to come from Washington County and \$1,923,788 is proposed to come from the Village of Germantown.

Ozaukee County - \$0.59 million

- No additional projects
- Remaining allocated funding to go to County Line Road (CTH Q) (\$589,400).
- Ozaukee County municipalities to receive additional STP-MUA balance of \$471,520.

Washington County - \$0.64 million

- County Line Road (CTH Q) between USH 41/45 and Pilgrim Road
 - Project cost: \$3,936,000 (Washington County indicated that following their submittal of this project to WisDOT, the construction cost estimate was revised to \$3,200,000. Project cost includes an additional 23 percent for engineering and contingencies).
 - ARRA allocated funding: \$636,636
 - Excess funding needed: \$3,299,364
 - \$3,186,383 funded with ARRA FHWA STP-MUA funds received from Ozaukee, Racine, and Waukesha Counties
 - \$112,981 funded with local funds
 - 80% of excess funding to be debited from STP-M balance: \$2,549,110. (see Attachment 8)
 - \$625,322 from Washington County
 - \$1,923,788 from Village of Germantown (Washington County only has \$625,322 balance, and Village of Germantown is a directly benefitting community)

Racine County – \$35,000

- No projects
- Allocated funding to go to County Line Road (CTH Q). (\$34,769)
- Village of Caledonia to receive additional STP-MUA balance of \$27,820. (see Attachment 8)

Application of this funding allocation and project selection process should result in projects fairly being allocated according to need based on lane-miles of eligible arterial facilities, and priority to be given through additional funding and projects to communities and counties with areas in economic distress. In addition, most of the projects which could be under construction in 2009 would be funded and create

economic stimulus. Six of nine projects would be funded with ARRA FHWA STP-MUA funds. One—CTH Y (Lannon Road) in Washington County—can be funded by the Wisconsin Department of Transportation with ARRA funds available to the State for county and local projects outside the Milwaukee urbanized area. The other two—CTH W (Port Washington Road) in Ozaukee County and Watertown Plank Road in the Village of Elm Grove—can be funded with routine FHWA STP-MUA funds, as those projects have previously been approved for such funding, and have been allocated such funding.
