REVIEW OF STATEMENT OF REVENUES AND EXPENDITURES FOR PERIOD ENDING SEPTEMBER 13, 2009

Copies of the Statement of Projected Revenues and Expenditures for the period ending September 13, 2009, were distributed for Committee review. Chair Greene asked Ms. Larsen to review with the Committee the financial status of the Commission accounts as of the end of that period.

In reviewing the Statement with the Committee, Ms. Larsen commented that the period covered represented nearly 70 percent of the calendar year. She then noted the following:

1. Federal and State revenue entries remain unchanged from the report presented at the June meeting. With respect to the Wisconsin Department of Natural Resources funding, $125,000 of the $180,000 is secure. It is expected the remaining $55,000 in funds will be forthcoming through a contract amendment later in the year.
2. Service Agreement revenues have been adjusted to reflect work completed to date, and represents an overall decrease of approximately $47,000 as reported in the September 2009 Treasurers Report. The amount shown for the transportation study decreased $50,000, due to a shift in staff workload from traffic forecasting for the Wisconsin Department of Transportation to programming U.S. Department of Transportation, American Recovery and Reinvestment Act funding. There was a slight increase in Community Assistance due to monies received to offset expenses incurred in the 2007 Orthophotography program.

3. The expenditure data on the statement reflects 19 reporting periods, or 36 weeks of the calendar year. The projection of expenditures through the end of the year reflects a surplus of about $234,000, a slight decrease from the September Treasurers Report. The decrease is in part due to payment for a replacement vehicle and the business insurance renewal.

4. The liability, operating, and reserve accounts reported on the statement remain unchanged from the June report and reflect the findings of the 2008 Annual Audit.

5. The Commission had on hand as of September 13, 2009, about $3.1 million. This includes about $83,000 of unearned revenue provided to the Commission in advance of expenditures. These funds are invested in the State of Wisconsin Local Government Investment Pool, which is presently paying .33% interest; in several Certificates of Deposit, and in savings and checking accounts at Johnson Bank.

In response to an inquiry by Ms. Russell regarding Certificates of Deposit, Ms. Larsen said that the Certificates of Deposit (CD) are listed in order of the maturity date. In response to an inquiry by Ms. Greene, Ms. Larsen indicated the Investors Bank interest rate is the applicable rate for the current CD.

In response to an inquiry by Mr. Wirth, Ms. Larsen stated that the unemployment expense is paid as it is incurred.

On a motion by Mr. Stroik, seconded by Ms. Russell, and carried unanimously, the Statement of Projected Revenues and Expenditures for the period ending September 13, 2009, was accepted to be placed on file (copy attached to Official Minutes).

DISCUSSION OF BUSINESS INSURANCE DEDUCTIBLE AND COVERAGE LIMIT OPTIONS

Chair Greene asked Ms. Larsen to review with the Committee the current Commission business insurance and coverage and deductible options.

Ms. Larsen then distributed a spreadsheet listing the components of the Commission’s insurance and comparing the cost by component of the 2009-2010 insurance to the 2008-2009 insurance. She noted there was an overall reduction in insurance cost of approximately $2,400 compared to the previous year (copy attached to Official Minutes). She further noted the spreadsheet indicates current coverage limits and deductible amounts and shows alternative coverage limits and deductible amounts and the attendant increase or decrease in insurance cost.

A discussion then ensued regarding the alternative deductible amounts and coverage limits. Mr. Dwyer recommended decreasing the auto insurance deductible from the current $1,000 to $500 resulting in only an additional annual $68 premium increase. Ms. Larsen responded that the deductible will be changed for the 2010-2011 policy renewal.

Mr. Buestrin and Ms. Russell suggested that staff investigate the amount of insurance cost reduction, if the Commission building had a fire alarm system, smoke detection system, and security system. Ms.
Larsen responded that she would examine the potential reduction in insurance costs, and costs of fire alarm, smoke detection, and security systems.

**DISCUSSION OF VEHICLE REPLACEMENT AND PURCHASE CONSIDERATIONS**

Chair Green asked Ms. Larsen to review with the Committee the vehicle replacement criteria and possible vehicle purchase considerations.

Ms. Larsen noted current criteria for vehicle replacement include vehicle age of at least two years, mileage exceeding 80,000 miles, and maintenance costs exceeding 25 percent of fleet average. She stated that a vehicle must meet at least two of the three listed replacement criteria. She further stated that replacement vehicles have been purchased from the State of Wisconsin VendorNet system, which provides a significant discount.

Following a discussion, Mr. Wirth suggested that the replacement criterion for total mileage be increased to 100,000 miles and the criterion for vehicle age be increased to four years.

On a motion by Mr. Dwyer, seconded by Mr. Stroik and carried unanimously, the vehicle replacement criteria were amended to be vehicle age of at least four years, vehicle mileage of at least 100,000 miles, and maintenance costs which are greater than 25 percent above the fleet average. Staff also was directed to continue to purchase vehicles from the State of Wisconsin Bureau of Procurement VendorNet System.

**CORRESPONDENCE/ANNOUNCEMENTS**

Mr. Yunker reported that there was no correspondence to be brought to the attention of the Committee.
