In response to an inquiry by Mr. Schleif, Mr. McKay stated that the Commission staff provide comments to the Public Service Commission during the environmental impact statement scoping phase of a proposed project regarding the project's relation to regional plan recommendations. The comments are typically focused on a project's impact on environmental corridors, natural areas, and critical species habitat sites.

In response to an inquiry by Mr. Johnson, Mr. McKay stated that the Environmental Division staff has been successful in receiving grants to fund some of the cost of the plan update as well as plan implementation activities.

Ms. Minkel-Dumit suggested exploring whether hyperlinks could be added to the site profiles on the webtool to organization websites, if they exist.

Mr. Decker stated that many of the outreach topics discussed should also be discussed by the Intergovernmental and Public Relations Committee.

There being no further questions or comments on a motion by Mr. Johnson, seconded by Mr. Pitts, the Regional Natural Areas Plan Update was unanimously recommended by the Committee for adoption by the Commission.
