developing a new city

Kadoodle

Lego city

- SEWRPC continues to engage youth in our Region to help them understand career opportunities in the planning, civil engineering, and environmental sciences fields.
- Last youth engagement with STEMForward was May 26, 2026, and the Commission was projected to have impacted over 1100 of students through our partnership for the 2025-2026 school year.
- If you know of any events or school programs that would benefit from Commission staff presence, please let me know

CEB TF

Are there other community engagement events you want to see us attend?
