

### BACKGROUND

A regional housing plan was adopted by the Southeastern Wisconsin Regional Planning Commission (SEWRPC) in 2013. The housing plan recommends monitoring steps toward implementation and reporting on the results to determine progress towards achieving the plan vision and objectives. An ongoing, regionwide data collection effort is necessary to undertake this monitoring program. SEWRPC has taken the lead in this effort as part of its duties as the areawide planning agency for the Region; however, partnerships with Federal and State agencies and County and local governments are necessary to ensure the implementation reports are accurate and completed in a timely manner. Implementation reports are prepared on an annual basis, with more comprehensive reports prepared every five to ten years.

#### **IMPLEMENTATION ACTIVITIES IN 2017**

The 2017 implementation report is based on the monitoring schedule set forth in Table 215 of the regional housing plan. For recommendations that are monitored annually, only activities that occurred in 2017 are included, although an activity from a prior year may be retained if it has a continuing impact on a recommendation. Additional information regarding activities that have occurred prior to 2017 are included in previous regional housing plan implementation reports, which are available on the SEWRPC website at www.sewrpc. org. The 2017 report also includes information on activities that are monitored on a five year basis. The following list of activities may be incomplete. Please contact Commission staff at 262-547-6721 or sewrpc@sewrpc.org regarding any missing or inaccurate information.

### REGIONAL HOUSING PLAN IMPLEMENTATION REPORT: 2017

### VISION

"Provide financially sustainable housing for persons of all income levels, age groups, and special needs throughout the entire Southeastern Wisconsin Region."

### **OBJECTIVES**

- Provide decent, safe, sanitary, and financially sustainable housing for all current residents of the Region, and the Region's anticipated future population.
- 2. Improve links between jobs and affordable housing by providing additional affordable housing near major employment centers; increasing employment opportunities near concentrations of existing affordable housing; and providing improved public transit between job centers and areas with affordable housing.
- 3. Maintain and expand the stock of subsidized housing in the Region to meet the anticipated need for such housing.
- 4. Provide accessible housing choices throughout the Region, including near major employment centers.
- 5. Eliminate housing discrimination in the Region.
- 6. Reduce economic and racial segregation in the Region.
- 7. Encourage the use of environmentally responsible residential development practices throughout the Region.
- 8. Encourage neighborhood design principles that provide housing in a physical environment that is healthy, safe, convenient, and attractive.

Recommendations to be Monitored by SEWRPC <sup>a</sup>	Monitoring Frequency	Measure	Activity

Modest single-family and multifamily housing development for affordable housing and job housing balance	Five years	Number of building permits by structure type and density	<ul> <li>Table 10 presents the average lot size of newly-platted subdivisions served by sanitary sewer in the Region between 2010 and 2017. About 40 sewered communities had at least one newly-platted subdivision on file with the Commission during this time period. As shown on Map 1, five of these communities had newly-platted subdivisions with an average lot size of 10,000 square feet or less, which would support the development of moderate-cost single-family housing</li> <li>Table 11 presents the number and percentage of new housing units developed in sewered communities in the Region between 2010 and 2017 by structure type. As shown on Map 2, there were 31 sewered communities where 50 percent or more of the total units were multifamily units</li> </ul>
Require sub-grantees to Affirmatively Further Fair Housing (AFFH)	Five years	Documentation of sub-grantee obligation; distribution of minority population	<ul> <li>Based on an agreement with the Metropolitan Milwaukee Fair Housing Council, Waukesha County will collaborate with other County and local governments in the Region to prepare an Assessment of Fair Housing Report that will identify impediments to fair housing. The report will be submitted to HUD on an annual basis with an action plan to overcome the impediments. Waukesha County will also require each community within the County that receives CDBG or HOME funds to create a Fair Housing Impact Statement that will identify community actions to address fair housing impediments and promote affordable housing for families</li> <li>Table 12 presents race/ethnicity data for the Region's counties and largest cities from the past four decennial Censuses and the 2017 American Community Survey. Table 12 shows that the minority share of the total population has increased throughout the Region between 1980 and 2017; however, minority populations remain concentrated in the Region's largest cities. Map 3 shows the distribution of the Region's minority population based on the 2010 decennial Census</li> </ul>

<sup>a</sup> Full recommendations are presented in Part 3 of Chapter XII of SEWRPC Planning Report No. 54, A Regional Housing Plan for Southeastern Wisconsin: 2035, March 2013.

<sup>b</sup> Monitoring frequency is listed as five years in Table 215. Data on structure type is compiled annually. Data on accessible single-family housing units is compiled on a five year basis.

- <sup>c</sup> American Housing Survey is only conducted for the metropolitan Milwaukee area (Milwaukee, Ozaukee, Washington, and Waukesha Counties). The most recent survey for the metro Milwaukee was conducted in 2015. The most recent survey with a focus on accessibility features for metro Milwaukee was conducted in 2011.
- <sup>d</sup> Some of these homes may have stairs cases consisting of three stairs or less.
- <sup>e</sup> Information will be compiled regarding additional types of subsidized housing for the 10-year plan update.
- <sup>f</sup> The actual number of vouchers in use by PHAs may be less than the number allotted, which fluctuates based on available funding, participating households, and the funding level needed to make up the difference between 30 percent of a households income and the actual rent for a housing unit.
- <sup>9</sup> Comprehensive plan amendments submitted to SEWRPC are analyzed each year for implementation of housing plan recommendations and summarized for the annual implementation report.
- <sup>h</sup> Applies to Counties with general zoning ordinances.

Note: The Wisconsin Department of Administration conducts an annual survey of each local government to collect data on the current housing stock. Respondents generally use building permits and demolition permits to report changes in housing units, which are reported by structure type: single family (including mobile homes), two family, and multifamily buildings. This table reports changes in the Region's housing stock from January 1, 2010, to December 31, 2017.

<sup>a</sup> Includes only public housing agencies that manage low-rent public housing units. Some of the units managed by PHAs may have projectbased housing vouchers attached to them or may be occupied by a household with a housing choice voucher.

<sup>b</sup> Totals published in previous annual reports and regional housing plan implementation reports included non-subsidized units in the Northlawn, Southlawn, and Berryland developments. These units have been removed from this report.

<sup>c</sup> As of December 31, 2017, the entire west side of the Westlawn development in the City of Milwaukee has been demolished but not yet rebuilt, resulting in a reduced number of subsidized family units from previous years.

<sup>d</sup> The West Allis Housing Authority does not receive any Federal rent-assistance funding for the Beloit Road Senior Housing complex, but does receive 100 project-based vouchers for the complex.

<sup>e</sup> About 41 percent of public housing units are designated to be occupied by families. The remaining 59 percent are designated for occupancy by the elderly or people with disabilities, or are supportive housing units.

In the 2000 and 2010 Censuses and 2017 ACS, respondents were given the opportunity to specify more than one race when responding to questions about racial identity. On this table, all Non-Hispanic people reporting more than one race in 2000, 2010, and/or 2017 are included in the "Non-Hispanic Other Race" category. <sup>b</sup> The minority population includes people reported in the Census as being of Hispanic origin and/or reporting their race as Black or African American, American Indian and Alaska Native, Asian, Native Hawaiian and Pacific Islander, some other race, or more than one race.
