

## WHAT IS VISION 2050?

VISION 2050 is Southeastern Wisconsin's long-range land use and transportation plan. It makes recommendations to local and State government to shape and guide land use development and transportation improvement, including public transit, arterial streets and highways, freight, and bicycle and pedestrian facilities, to the year 2050. The Commission adopted VISION 2050 in 2016, following a three-year development process guided by the Commission's Advisory Committees on Regional Land Use and Transportation Planning.

2020 REVIEW AND UPDATE

## OVERVIEW OF THE 2020 REVIEW AND UPDATE

### PURPOSE OF THE REVIEW AND UPDATE

Every four years, the Commission conducts an interim review and update of the regional land use and transportation plan, in part to address Federal requirements. The 2020 Review and Update looks at how well VISION 2050 is being implemented, compares the year 2050 forecasts underlying the plan to current estimates, and explores how the existing transportation system is performing. The review will also examine whether it remains reasonable for the recommendations in VISION 2050 to be accomplished over the next 30 years, given the implementation of the plan to date and available and anticipated funding. As a result of the review and update process, recommendations may be added or changed, and the financial analysis will be updated to reflect any changes in anticipated funding or expenditures.

### PUBLIC INVOLVEMENT GOALS

#### Round 1

- ▶ Share information with the public about progress on the implementation of plan recommendations
- ▶ Collect feedback about implementation and on changes that have occurred, since VISION 2050 was adopted, that we should consider as we update the plan's recommendations

#### Round 2

- ▶ Allow the public to review and comment on the draft 2020 Review and Update, including updated financial and equity analyses
