The above project is being amended to reflect an increase in the estimated project cost from \$18,880,500 to \$23,412,600. Part of this project's increase is from the addition of \$2 million in funding Federal Highway Administration Congestion Mitigation and Air Quality Improvement Program (CMAQ) funds received from the State's existing allocation of Federal obligation authority using surplus balances of CMAQ contract authority. The use of the surplus balances in no way reduces the amount made available by the State Legislature for the State's competitive CMAQ program now or in the future.
