# DRAFT TRANSIT SERVICE RECOMMENDATIONS

The following draft recommendations for the Waukesha Metro Transit System and the Waukesha County Transit System have been designed to improve the performance of each system based on the evaluation of the transit system's performance and in careful consideration of the comments received from the Advisory Committee, Waukesha County businesses, transit riders, non-profit organizations that serve clients that use transit, students and parents/guardians in the Waukesha Public School District, and the public related to this effort.

The draft recommendations are presented in three elements: (1) fixed-route recommendations for the City of Waukesha and Waukesha County; (2) potential on-demand or flexible transportation services that could replace or extend existing fixed-route bus services; and (3) potential recommendations for paratransit services.
